TABLE FOR PLANTING ORCHARDS

SQUARE SYSTEM—Showing the number of Plants required to plant an acre of land, from 1 foot to 80 feet, plant from plant.

TRIANGULAR SYSTEM—Divide the number required to the acre. Square Method as below, by the decimal .866, or roughly one-sixth more. The result will be the number to the acre by this method.

Distance Apart. Feet.	No. Per Acre. Number.	Distance Apart. Feet.	No. Per Acre. Number.	Distance Apart. Feet.	No. Per Acre. Number.
80	7	18	134	6½	1,031
60	12	17	150	6	1,201
50	17	16	169	5½	1,440

INTRODUCTORY

In presenting our Catalogue for the coming planting season, we desire to tender our sincere thanks to our numerous Customers for the generous support accorded us during the past, and, at the same time, to assure them that it will continue to be our sole aim to supply only trees of the highest quality, true to name, and those which cannot fail to be a source of satisfaction to the purchaser.

Customers favouring us with their orders may depend upon being most liberally served, and their requirements will receive our most careful and prompt attention.

Our stock is almost exclusively worked from select fruiting trees. By the most rigid observation and careful selection of buds from fruiting trees, we are enabled to offer a class of tree which cannot fail to give the utmost satisfaction.

It is our intention to reduce rather than to increase the number of varieties formerly catalogued, our aim being to stock only those lines which are of the finest quality.

We have stocks of assiduous and deciduous trees to offer this season, and the quality is beyond question, the trees having made exceptional growth, and are indeed a hardy, well-grown lot, as an inspection will prove.

ORDERS.

We are prepared to book orders for the ensuing season at any time from now on, and such orders will be reserved and forwarded on any date convenient to the orderer; but clients should give us three or four days' notice before they desire their orders despatched, as it is sometimes impossible, owing to rush of business, to execute orders at a moment's notice.

All orders are executed strictly in rotation, and it is therefore advantageous to order early, and thus secure the pick of the beds.

Orders should be set out clearly and legibly on a separate sheet.

All letters and enquiries will at all times receive our prompt and careful attention.

PACKING AND DESPATCHING.

All packing is done by the most up-to-date methods and under our personal supervision, irrespective of the distance which orders are to be forwarded.

A small charge is made (just sufficient to defray actual cost of material used) for packing bales for rail or shipment.

TERMS OF BUSINESS.

Our terms are strictly nett cash, and all unknown clients must send remittance with order, or provide a satisfactory reference. All prices quoted in this Catalogue are free on rail at Ryde, or F.O.B. Sydney.

When we deliver trees at the Railway Stations and receive the Railway's receipt for same, our responsibility ceases with regard to rough usage, damage, or loss during transit, etc., as the prices quoted in this Catalogue are free on rail.

LOCATION OF NURSERY.

Our nursery is situated about 1½ miles from RYDE RAILWAY STATION on the Northern Line, 14 miles from Sydney. If coming by train, catch train to RYDE, thence by MOTOR BUS to HUGHES AVENUE, ERMINGTON, our Nursery being at the foot of Hughes Avenue, about 5 minutes comfortable walk.

Should you be driving, take the main road from Sydney, passing through Drummoyne, Gladesville, Ryde, and thence to Ermington. If coming from the west, our place is just 4 miles by the main road from Parramatta.

CONDITIONS OF SALE.

We believe that all trees and plants sold by us are of the description and kind specified at the time of sale. Where reasonable proof is given that the plants have been wrongly labelled we will refund the original purchase money or correct the mistake by new plants; but we further give no warranty, express or implied, as to their growth, description, quality or productiveness, and will not be in any

way responsible for the crop. If the purchaser does not accept the goods sold to him on these terms, they are at once to be returned to us.—SWANE BROS.

VISITORS.

An inspection of our stock is cordially invited, and visitors are always welcomed at the nurseries.

PRICES.

All Prices Strictly Nett Cash.

Prices quoted in this Catalogue are as under with regard or quantity purchased:—

Quantities not exceeding 12, at single rate.

Over 12 and under 50, at dozen rates; 50 and over at 100 rates.

No complaints entertained unless made within 14 days of date of invoice.

Exchange must be added to Cheques sent in payment of Accounts, and Money Orders made payable to WEST RYDE.

ADVICE TO PLANTERS

Upon receipt of your trees from the nursery, moisten the roots, but do not leave the trees standing in water. If they are all to be planted within a few days, keep the roots covered with damp bagging, straw, or some similar substance. If they cannot all be planted for some little time, place the roots in a shallow trench, about two feet wide and six to nine inches deep, and then shake loose earth in amongst the roots, completely covering them with soil. Firm them a little, and be sure the soil is moist.

PLANTING.

Previous to planting, the land should be thoroughly broken up as deeply as possible. Subsoil ploughing in most soils is to be highly recommended. The ground cannot be worked too much prior to planting.

Remember, the first few years are most important to the young trees, and cultivation is the keynote to successful growth. It is bad business for the grower to neglect trees after having invested his money in them, and is also a poor advertisement for the nurseryman.

Keep a good much of loose soil around the tree during summer.

After planting, prune the trees, cutting the centres out where necessary, leaving four or five leaders, and cutting these back to within a few inches of the stem, and cutting to an outside bud in every instance.

Unless we are specially asked to do so, all fruit trees are sent out unpruned, as methods and ideas of pruning vary considerably according to different climates, and most customers prefer to prune according to their own ideas. If pruning is required, please mark plainly on order sheets.

CHEAP TREES.

Quality in Fruit Trees, as in any other commodity, costs money to produce, but money spent on quality, especially in Fruit Trees and Roses, is, without question, a safe and sound investment. The sole purpose of planting is to produce revenue and to cultivate them so that their revenue-giving qualities increase each year; therefore, it is indeed poor business to plant cheap trees from unreliable sources and run the risk of discovering after perhaps five or six years that they are not true to name. The loss in such a case is many many times greater than the original cost of good trees. We mention the above merely to emphasise the fact that so-called cheap trees are often very costly.

We decline to deliver at erroneous prices figuring in this Catalogue that may have escaped our notice.

This Catalogue cancels all previous terms, conditions, and prices.

PLANTING TIME.

All deciduous Fruit Trees should be planted during May to August, inclusive. June and July are generally regarded as the best months. Early planted trees get established before the dry summer sets in. Time of planting should be judged a good deal by your own locality, as in some districts spring is later than in others. Our district being comparatively early, it is advisable for planters in districts where spring is late, to receive the trees early, and heel in till required, as they are more likely to remain dormant that way. Trees can be planted earlier or later if so desired, but there is no advantage and nothing gained in planting out of season.

FRUITING.

The age trees begin to bear is variable, and largely depends on cultivation, pruning, and conditions prevailing after planting. Trees growing extremely well in early stages will not bear as early as trees that get checked in their growth, and when trees are neglected and left unpruned from the beginning, they will often fruit early, but rarely develop into a tree capable of bearing a decent crop. Sizes of any fruits given are average size grown under normal conditions, as fruit on young trees is generally much larger and coarser than on older ones. Approximate fruiting ages given under each variety. Extra early fruiting is not desirable, as it is at the expense of future crops.

SWANE BROS.

E. N. SWANE (Late A.I.F.), Manager.

LIST OF FRUIT TREES.

APPLES.

Worked on blight-proof and seedling apple stock; commence bearing 4th to 7th year after planting. Price: 1/6 each; 15/- dozen.

Allsopp's Early.—Medium green, floury, prolific; the earliest cooker for coast; blight-proof.

Black Ben Davis.—A seedling from "Ben Davis," introduced from America. It is a decided improvement, more beautiful, solid red color, better quality, good cropper. Late.

Carrington Red.—Medium; varies considerably in color; bright red; prolfic; blight-proof; the earliest for the coastal districts.

Cleopatra (New York Pippin).—Medium to large, oblong to conical; skin clear yellow, flesh whitish, juicy and rich; good dessert quality. Grown extensively for export throughout all the drier Apple districts of the Commonwealth. A consistent and very heavy bearer. Late.

Cox's Orange Pippin.—Grand dessert; flavour excellent; late.

Delicious.—A most beautiful and delicious Apple from Iowa. Tree a strong grower, hardy, and most prolific bearer; fine color and exquisite flavour. One of the best late keeping Apples. Late.

Dunn's (Munroe's Favourite). — Fruit large, clear, waxen yellow, with brownish red cheek. A good solid late cooking Apple; also useful for dessert.

Fameuse (Lady in Snow—Fanny).—Medium size, good color, snow-white flesh, splendid dessert, mid-season to late, aged trees bear well.

Five Crown (London Pippin).—Fruit medium size; skin greenish yellow with brownish red cheek; good cooking or dessert; does well in the cooler parts; fruit keeps well, and is a fair export variety. Late.

Glengyle Red.—Large, dark crimson; very hard and crisp, good bearer, very late.

Granny Mack.—This fine apple is claimed to be a cross with McIntosh Red and Granny Smith.

Granny Smith.—A large and juicy Apple of a greenish yellow color; late, heavy bearer, and highly esteemed for export.

Gravenstein.—Fruit medium, conical, yellow and red; flesh rich and juicy; bears well.

Irish Peach.—Medium, red streaked flattish, good bearer, dessert.

Jonathan.—An American apple of great excellence; fruit medium size, roundish, conical; skin clear light yellow, almost covered with rich red, dark red where fully exposed. Of first dessert quality, an early bearer, excellent for market or export, a leading commercial variety.

King David.—This is a rich dark red Apple with yellowish flesh; flavor good, juicy and rich; the quality is of the very best.

Kirk's.—Large, crisp, somewhat tart, bright red, fair carrier, ripening early.

Lalla (Red Delicious).—Identical in every way except color, which is a bright crimson.

Lord Nelson.—Extra large, yellow with red, cooking, prefers loamy soil, aged trees bear well; early.

McIntosh Red.—Large, yellow, flushed red, heavy bloom, excellent quality, soft white flesh, falls easily, a fine dessert Apple, mid-season, good carrier.

Minty.—New. **2/- each.**

Mobbs' Royal.—Very large, green cooking and baking, good bearer, early.

Northern Spy.—Fruit large; smooth skin, pale yellow, covered with light and dark stripes of purplish red; flesh white, fine grained and delicious; first-class dessert, blight-proof. Late.

Tasma (Democrat).—Large, dark crimson, flattish, grand keeper, coarse quality, heavy cropper, very late.

Rome Beauty.—Fruit large and handsome; skin yellow shade and striped with bright red; flesh yellowish, tender and juicy. A remarkably handsome fruit of good dessert quality; good exporter. Late.

Twenty Ounce.—A very large culinary apple. Medium.

Yates.—Fruit small; skin whitish yellow splashed and shaded with red; flesh white, tender, juicy; good quality; keeps very late.

Willie Sharp.—Medium, yellow, good dessert, early, blight-proof, keeps well for an early, fine flavor.

APRICOTS.

Worked on Mariana Plum Stocks; commence bearing 4th-6th year after planting.
Price: 1/6 each; 15/- dozen.

Require well-drained and high situation; shaley and gravelly subsoil often produce the best fruit.

Allen's Early.—Second earliest Apricot, fruit large, good color.

Alsace.—Large, roundish; rich yellow, shaded with brownish red; flesh deep yellow, very rich. Ripens first week in January.

Camden Superb.—Large, pale yellow, oblong, good bearer, requires high situation, early.

Cattells Early.—Large yellow, good bearer.

Colorado.—Very large, handsome, and of good quality; heavy bearer.

Early Moorpark.—Medium, yellow, shy bearer, hence early.

Glengarry.—A very early Apricot and one that has come to stay. Fruit not large.

Hemskirk.—Very large, yellow, good bearer, late.

Mansfield's.—Large, yellow, fine flavor, good bearer, mid-season.

Moorpark.—Large, yellow, red cheek, good quality, fine carrier, good bearer, mid-season.

Newcastle.—Medium, yellow, red cheek, good quality, early and heavy bearer, best early.

Oullin's Early.—Large golden yellow, roundish, rich, good bearer.

Royal.—Large, yellow, red cheek, good bearer, mid-season.

Shipley Blenheim—.Large, deep yellow, good bearer, and drying and carrying, mid-season.

Tilton.—Large, golden yellow, good drying, prolific, mid-season.

Trevatt.—Large, yellow, rich, good cropper and dryer, mid-season.

Wenatchee.—Large, golden yellow, ripens evenly, fine shipper, heavy bearer, mid-season.

ALMONDS.

All worked on Seedling Peach Stock; commence to bear 3rd-4th year after planting.
Price: 1/6 each; 15/- dozen.

Nut bearing tree; good for breakwinds where conditions are suitable, bear best in dry atmosphere.

Burbanks.—Medium size, good bearer, late bloomer.

Early Jordan.—Large, paper shell, early flowerer, upright grower.

Eureka.—Similar in size and flavor to the Jordan, paper shell, heavy cropper.

Golden State.—Large, soft shell, smooth kernel, regular bearer.

Hatche's.—Large, paper shell, very thin, good bearer.

Harriotts.—Large, soft shell, sweet kernel, regular bearer.

I.X.L.—Large, paper shell, heavy bearer.

Paper Shell.—Large, paper shell, good bearer.

Lewelling.—Medium size, soft shell, best cropper in coastal area.

White Nonpareil.—The tree is a strong grower of spreading habit; nuts large; white shell.

CHERRIES.

All worked on Seedling Mazzard Stock; commence bearing 5th-8th year after planting.

Price: 1/6 each; 16/- dozen.

Requires a cold climate, deep soil, with good natural drainage. For growing Cherries largely for market, it is essential to choose good, firm cherries of large size, such as St. Margaret, Ramen Olivia, Florence, Big Napoleon, Early Lyons.

Biggarreau Common (White Heart).—Large, pale red, prolific, early.

Biggarreau Napoleon.—Large, bright red, flesh firm, good late sort.

Bing.—Large, dark black, fair bearer, late.

Black Heart.—Large black, shy bearer, early.

Black Republican.—Large, black, firm flesh, prolific, late.

Bleeding Heart.—Large, dark red, fine quality, red flesh, good cropper, mid-season.

Burgdorff's.—Large, dark red, fine bearer, early.

Eagle's Seedling.—An early form or variety of St. Margaret, black and very prolific.

Early Rivers.—Large black, good bearer, very early.

Early Lyons.—Large, black, firm flesh, pendulous habit, largely planted for market; most profitable of the early sorts.

Early Purple Guigne.—Medium, black, prolific, very early.

Florence.—Large bright red, good bearer, one of the best for shipping, late.

Noble.—Large, blackish crimson, flesh firm, rich, late.

Ramen Oliva.—Large, dark red, flesh firm; resembles, but more upright grower than Early Lyons, early.

St. Margaret.—Very large, black, flesh firm, one of the best for market, late.

Werder's.—Large, shining black, productive, early.

FIGS.

All grown from cuttings off bearing trees.

Commence bearing 1st-3rd year after planting.

Price: 1/6 each; 15/- dozen.

Under suitable conditions will bear two or more crops a year. Thrive best in loamy, rocky soil, where roots can reach water.

Blue Province.—Medium large, bluish purple, very prolific, strong grower.

Black Genoa.—Very large, purplish black, flesh red, luscious, good grower.

Brown Turkey.—Large, tawny black, luscious, productive, good.

White Adriatic. — Medium, brownish green, thin skin, prolific, fair grower.

NECTARINES.

All Worked on Seedling Peach Stock; commence bearing 1st-3rd year after planting.

Require similar soil and treatment to the Peach, to which they are closely allied.

Price: 1/6 each; 15/- dozen.

Albert Victor.—Large, bright red, good flavor and cropper, slip mid-season.

Cardinal.—Very early, brilliant color, and ripening ahead of Early Rivers, freestone.

Diamond Jubilee.—Large, scarlet, white flesh, mid-season, slip.

Early Rivers.—Large, slip, bright red, moderate grower, very early, good.

Elruge.—Medium, bright scarlet, prolific, good flavor, slip early.

Fertile du Poitou.—Large, yellow striped red, flesh white, juicy, slip, mid-season.

Goldmine.—Very large, bright bronzy red, fine flavor, slip, sure bearer, mid-season. The leading Nectarine of Australia.

John Rivers.—Large, highly colored, very early, good flavor.

Lady Carrington.—Large, bright scarlet, good flavor, prolific bearer. the best cling. mid-season.

Lee's Seedling.—Large, streaked red, fair cropper, slip, mid-season.

Masterpiece—Large and attractive fruit, skin yellow, overlaid with bright crimson, flesh deep yellow, ripens early in February.

New Boy.—Large brilliant crimson, flesh juicy, good bearer, slip, mid-season.

Rivers Orange.—Medium, yellow, red cheek, fine flavor, good bearer, early, slip.

Stanwick Seed.—Large, yellow striped, red, good flavor, does not crack much, the best of the late slips.

W. C. Fripp.—Large, yellow with red, good bearer, clingstone, late.

PEACHES.

All Worked on Seedling Peach Stock; commence bearing 1st-3rd year after planting.

Thrive best in good open loam, thoroughly drained, but will grow in almost any fairly well drained soil.

Price: 1/6 each; 15/- dozen.

Admiral Dewey.—Early yellow-fleshed, freestone; fruit deep rich yellow, with purplish crimson; flesh yellow.

Alton.—Large, creamy, red cheek, flesh white, juicy, good bearer, slip, early.

Aunt Becky.—Large, bright crimson, white-fleshed, prolific, slip, early.

Bell's Improved.—Medium, yellow flushed red, slip, very early.

Bell's November. — Medium, yellow, flushed red, prolific, blooms early, requires high situation, slip, very early.

Black Braddock.—Medium, red, crops heavily, slip, early.

Blackburn.—Large, yellow red cheek, yellow flesh, prolific, slip, ripens New Year.

Braddock.—Medium, red, crops heavily, slip, early.

Brigg's Red May.—Well-known early kind, lately a shy cropper, semi-cling.

Carman.—Large, creamy, red cheek, white flesh, splendid quality, slip, ripens about Christmas, the best of its season.

Christmas Box.—Large, creamy, flushed red, white flesh, fine flavor, slip, ripening Christmas.

Early Crawford.—Large yellow, red cheek, yellow flesh, slip, only profitable in deep, rich soil, mid-season.

Devlin's Red (Camden Superb).—Medium, dark red, white flesh, cling, prolific, requires hard pruning early.

Early Rivers.—Large, tender, pale yellow color; very prolific.

Early Elberta.—Fruit as large as Elberta; same shape, color, and good quality; excellent shipper and keeper; freestone and good cropper.

Edward VII.—Medium, yellow, flushed red, blooms early, slip, sweet, requires high situation, extra early.

Elberta.—Large, yellow and red, yellow flesh, slip, mid-season.

Flat China (Button Peach).—Medium, flat, greenish, tinted red, blooms early, slip, best suited for warm, humid climates.

Golden Queen.—Medium, yellow to the stone, heavy cropper, cling, a canner, compact growth, late.

Governor Rawson.—Raised in Ryde district, and said to be a sweet Braddock, but ripening earlier.

Greensboro.—Good cropper, excellent quality freestone, early.

Hale's Early.—Large, blush red, good flavor, slip, requires good soil to do well, early.

J. H. Hale.—Very large, round, yellow, bright red cheek, yellow flesh, fine grained, good flavor and carrier, good bearer, slip, mid-season.

Double Flowering Peaches.

Price: 1/6 each.

Red, Pink, White, Striped.

High's Early Canada.—A very early peach, ripening same time as Brigg's Red May. Highly colored, good bearer.

Italian Cling.—Very large, yellow flesh, late.

Italian Slip.—Very large, yellow flesh, prolific, very late.

La France.—Medium, carmine red, flesh white, melting, juicy, polific, early, slip.

Le Vainquer.—Medium, cream tinted red, extra early, heavy bearer, slip, good quality.

Mayflower (New Discovery).—Large, bright red, good quality, ripens about mid-November, extra early market sort, semi-cling, late flowerer, fair bearer.

Mountain Rose.—Large, bright red, white flesh, prolific, requires good soil, early.

Pullar's Cling.—Very large, yellow, red cheek, yellow flesh, a canner, late.

Row's Champion.—Large white-fleshed freestone, ripening just before Elberta. Heavy and constant cropper.

Royal George Cling.—Large, white, crimson cheek, flesh white, mid-season.

Royal George.—Large, white, red cheek, white flesh, fine quality, good bearer, slip, mid-season.

Ruby Red.—Large, bright red, flesh white, cling, heavy cropper, dwarfish growth, early.

Shanghai Freestone.—Seedling of old Shanghai. It is a perfect freestone, brilliant bright red. Mid-season.

Shanghai Seedling.—Large, white, red cheek, white flesh, fine flavor, cling, heavy cropper, mid-season.

Taylor's Anniversary Red.—This beautiful peach is a cross with Briggs' Red May and Shanghai Seedling; a perfect freestone, highly colored, excellent quality; ripens about Anniversary Day.

Triumph.—Large, yellow, covered with red, flesh yellow, excellent flavor, slip, good bearer, blooms late, inclined to be hairy, ripens before Christmas.

Watt's Early.—Medium size, creamy, flushed red, blooms early, fair cropper, slip, ripens with Edward VII.

Wiggins.—Large, oblong, cream, red cheek, white flesh, fine quality, slip, heavy cropper, ripens end December, a good market kind.

EUROPEAN PLUMS.

Worked on Mariana Plum Stock; commence bearing 3rd-5th year after planting.

Most of the European varieties only come to perfection in mountain districts, or where the winter is cold.

Price 1/6 each; 15/- dozen.

American Damson.—Small, purple, tart; best for jelly; late.

Angelina Burdett.—Large, purple, fine dessert, slip, irregular bearer in coastal belt, one of the best, mid-season.

Coe's Golden Drop.—Large, yellow, rich, slip, suit cold districts only, late.

Diamond.—Extra large, oval, almost black, heavy bloom, tart, slip, splendid cropper, mid-season.

Early Orleans.—Large, purple, sweet, slip, splits easily in wet, mid-season.

Early Evans.—Medium, blackish purple, slip, sometimes shy, very early.

Excelsior (Jenkins).—Large, roundish purple, heavy bloom, fair flavor, good bearer, slip, ripe mid-January.

Giant.—Enormous size, red, flesh yellow, firm, slip, profuse bearer, good carrier, poor grower, mid-season.

Grand Duke.—Very large, blackish purple, fine flavor, slip, productive, one of the best in cold climates, late.

Greengage.—Medium, green, flavor unsurpassed, slip, requires cold district to bear well, mid-season.

Late Black Orleans.—Reddish purple, good quality, late.

Lutherborough.—Medium, black, slip, heavy bearer, good for jam, unusual flavor, mid-season.

Pond's.—Large, red, slip, good cropper in suitable locality, uncertain and unreliable, mid-season.

President.—Large, oblong, purple with white dots, heavy bloom, flesh firm, good bearer, slip, one of the best for cold climates, very late.

Tibbitt's.—Medium, purple, sure bearer, rather tart, slip, extremely early.

PRUNES.

Worked on Mariana Plum Stock; commence bearing 4th-6th year after planting.

Prune is simply a French name for Plum, but the expression is now mostly applied to those Plums used for commercial drying.

Robe de Sergeant and Prune d'Agen are the two highest grade commercial varieties.

Price: 1/6 each; 15/- dozen.

Pond's (Hungarian).—See Plums.

Prune d'Agen (French). — Medium, purple, very sweet, good cropper, dries easily, mid-season, slip.

Robe de Sargent.—Medium, purple, very sweet, slip, heavy cropper, splits easily in wet, mid-season.

Golden.—Large, roundish oval, golden, skin thin, slip, late.

Splendour.—Medium, reddish purple, heavy bloom, firm, sugary, slip, prolific, early.

Sugar.—Medium, purple, very sweet, slip, good bearer, early mid-season.

JAPANESE PLUMS.

Worked on Mariana Plum Stock; commence bearing 1st-3rd year after planting.

This type is very popular. They are prolific and early bearers, handsome in appearance, mostly of a flavor peculiarly their own. The tendency in some varieties to sun scale is much more pronounced in humid climates.

Price: 1/6 each; 15/- dozen.

Balleana.—Large, yellow and crimson, flesh firm, slip, prolific, very late.

Beauty.—Large size, roundish, dark showy red skin, dark flesh, long keeper, ripens first week in December.

Blood (Cyco Sumono).—Large, blackish crimson, heart-shaped, blood color, slip, heavy bearer, mid-season.

Blood (Satsuma).—Large, flat, red, heavy bloom, flesh red, semi-cling, weeping growth, good bearer, a favorite, late.

Burbank.—Large, cherry red, lilac bloom, firm flesh, yellow, great cropper, slip, requires good soil, early.

Climax.—Very large, bright crimson good flavor, slip, sometimes shy, ripens Christmas.

Chalco.—Ripens just before Burbank, large, flat, reddish purple, sweet, firm, yellow flesh, extremely prolific cropper.

Doris.—Fair size, dark purple, almost black; good eating and jam plum. Late.

Duffy's Early Gem.—Fruit roundish. medium size, pale green, turning to deep red when ripe; very early and best of all for market.

Early Jewel.—Medium, bright red, juicy, fine flavor, slip, irregular bearer, very early.

Kelsey (Purple Monster).—Extra large heart-shaped, skin greenish, turning purplish, fine flavor, slip, heavy bearer, scalds easily on coast, good carrier, late.

Narrabeen. — Large, round, reddish, flatish, skin reddish with yellow dots, flesh yellow, juicy, sugary, small stone, heavy cropper, good carrier. Ripens end January.

October Purple.—Large, purple, flesh yellow, sweet, prolific, slip, scalds easily on coast, mid-season.

Santa Rosa.—Large, purplish crimson, heavy bloom, flesh light red, good flavor, slip, good cropper, a favorite early.

Shiro.—Medium large, amber yellow, first-class quality, good carrier, good for home use and jam, early.

Sultan.—Large, dark crimson, flesh crimson, firm, slip, productuve, good market sort, early.

Shipper.—A good sized dark red variety, ripens December.

Wickson.—Very large, yellow, red cheek, heart-shaped, stone small, slip, prolific, good for home use, ripens end of January.

Wilson.—Medium large, bright crimson, flesh yellow, grand shipper, slip, ripens last week November. The best early plum.

Wright's Early.—Fruit identical with "Burbank." Habit of growth more erect, ripens about end of November.

PEARS.

All Worked on Seedling Pear Stock; commence bearing 4th-8th year after planting.
Thrive best in deep, moist soil, with sheltered position. Plant deeper than other trees. Slower in fruiting than most other trees.

Price: 1/6 each; 15/- dozen.

Bergamont (Bailey's)—Medium, greenish russet, good flavor, keeps well, late.

Bergamont (Gansel's).—Large, greenish russet, keeps well, melting, splendid flavor, late.

Beurre Bosc.—Large, very long, rich russet, finest quality, fine keeper, aged trees bear well, moderate grower, mid-season.

Beurre Capiaumont.—Medium, yellow, red cheek, flesh firm, keeps well, fair quality, heavy cropper, mid-season.

China—Large yellow, prolific, good for kitchen and preserving, mid-season.

Clapp's Favorite.—Very large, rich flavor, fine quality, falls easily in windy positions, good market sort, early.

Glou Morceau—Large, obovate, yellow, flesh buttery, good dessert, late.

Howell.—Medium, light waxen yellow, good quality, heavy bearer, keeps well, good market sort, early mid-season.

Josephine de Malines.—Medium, greenish yellow, fine flavor, very juicy, good keeper, very late, aged trees bear well.

Keiffer (China Hyb.).—Large, roundish oval, yellow, prolific bearer, good canner and fair quality if stored, late.

Napolean (Vicar of Wakefield).—Large, greenish, red cheek, good keeper, good bearer, cooking and dessert, late.

Packham's Triumph.—Large, yellow, red cheek, irregular shape and size, finest quality, grand keeper, precocious and heavy bearer, one of the best, mid-season.

Packham's Late.—Large, greenish yellow, good bearer, late.

William's (Bartlett).—Large, yellow, red cheek, fine quality, musk flavor, heavy bearer, dries and cans fine, one of the best known and widest planted, mid-season.

Winter Bartlett.—Large, greenish yellow, irregular shape, coarse grained, good bearer, late.

Winter Cole.—Medium, greenish yellow, juicy, good bearer and keeper, late.

Winter Nelis.—Medium, russet, good bearer and keeper, one of the finest flavored dessert pears, late.

LOQUATS.

Worked on Seedling Loquat Stock; commence bearing 2nd-4th year after planting.
Will grow in almost any soil, and make a profitable, evergreen breakwind, in suitable districts. The safest time to plant is late Autumn, preferably when the weather is dull or raining, as they are very sensitive to drying winds after transplanting; but, once established, are very hardy. Fruits ripen in spring, and require little or no pruning, but, if choicest fruit is desired, it will be necessary when heavy crops have set, to either thin each individual bunch down to half the number, or else cut a number of bunches out altogether.

Price: 1/6 each; 15/- dozen.

Chatsworth Victory.—Fruit very large, with thick flesh; ripens late and is of very superior quality. The tree is a strong grower, and good bearer, and is undoubtedly one of the best.

Heard's Mammoth.—Fruit nearly as large as Chatsworth Victory, but ripening a little earlier; both varieties produce magnificent fruit if given good cultivation.

PASSION VINES.

FROM OPEN GROUND — 8/- PER 100. **(Special quotations for large orders.)**

QUINCES.

Price: 1/6 each; 15/- dozen.

Very hardy, thrive best in low, moist soil, but will do almost anywhere.

Bereczki—Large, golden yellow, smooth, flesh white, prolific, good, late.

Champion.—Large, pear-shaped, yellow, fine flavor, prolific, late.

Fuller.—Medium, yellow, prolific, fine flavor, very early.

Missouri.—Very large, pale yellow, mild flavor, bears well, scalds at times. The best early.

Giant of Lescovaz.—Large, yellow, flesh white, prolific, mid-season.

Master's.—Medium, yellow, good quality, bears well, the earliest.

Portugal.—Large, deep yellow, heavy bearer, one of the best, late.

Rea's.—Large, roundish, yellow, fine quality, mid-season.

Smyrna.—Large, yellow, tender, prolific, mid-season.

GRAPE VINES.

The following is a selected list of the very best commercial varieties:—

Price: 9d. each; 8/- dozen.

Blue Imperial (Oulliade or Cinsaut)—Blue Black, early.

Brown Muscat (Frontignac) — Medium, good eating.

Cornichon (Black Ladys Finger)—Black, large berry, very late, fleshy.

Daria (Ohanez)—White, large berry and bunch, fleshy, very late.

Doradillo (Morillon) — White, large bunches, prolific bearer, late.

Gordo Blanco (White Muscat) — Large berries, very sweet, mid-season.

Isabella—Black, Foxy flavor, mid-season, good for trellis.

Muscat Hambro (Snow's Black Muscat) —Berries large, bunches long and loosely set, the best muscat, mid-season.

Sultana—Medium, white, sweet, seedless, good bearer, early.

Waltham Cross (Rosaki)—Large amber, good bearer, fine flavor. Makes a good raisin. Mid-season.

WINE GRAPES.

Black Shiraz—Makes the best Port Wine.

Grenache Blue—Heavy bearer, Port Wine variety.

Hunter River Reisling —Heavy bearer, White.

Pedro—White, heavy bearer, makes a first-class light wine.

White Shiraz (Uni Blanc)—White, heavy bearer, make a good white wine.

MULBERRIES.

Commence bearing 1st-4th year after planting.

Will grow anywhere; but thrive best where roots can reach plenty of moisture

Price: 1/6 each; 15/- dozen (where not otherwise priced).

Black English.—Large, black, very sweet, requires cold or dry climate to do very well, subject to black spot on the humid coastal belt. **3/6.**

Hicks.—Large, glossy black, sub-acid flavor, the best for the coastal belt, often bears two crops a year, the earliest, and very prolific for districts where frosts are light.

CURRANTS.

Commence bearing 1st-3rd year after planting.

Price: 9d. each; 8/- dozen.

Only crops well where there is a cold winter and moist climate. Plant 6 feet apart in rows 8 to 10 feet apart, and cut back each year.

Can supply varieties in Black, Red, or White.

GOOSEBERRIES.

Commence bearing 2nd-3rd year after planting.
Price: 9d. each; 8/- dozen.

Good crops only where there is a cold winter and moist climate. Plant 6 to 8 feet apart in rows 8 to 10 feet apart, and if extra large fruit is required cut back each winter. Can supply varieties in Red, White, Yellow and Green.

GUAVAS.

Commence bearing 3rd-4th year after planting.
Price: 1/6 each; 15/- dozen.

Finely flavored fruits, either for dessert, or preserving, thriving best in deep, free soils, where light frosts only prevail, excepting the Purple, which is very hardy.

Purple (Cherry or Strawberry)—Medium, purplish red, bears two or more crops a year, evergreen, ornamental shrub, will grow almost anywhere, and is very hardy.

Yellow.—Large, yellow, pink flesh, aromatic flavor, good dessert, good bearers, very profitable in suitable localities, deciduous in frosty districts.

Parker's.—Large, creamy yellow, creamy white flesh, flavor not equal yellow, fair bearer, semi-deciduous.

PERSIMMONS.

All worked on Seedling Persimmon Stocks; commence bearing 2nd-3rd year after planting.
Price: 1/6 each; 15/- dozen.

Will do in most soils, but thrive best in low, moist situations; the deeper and richer the better. Not suited for localities subject to severe late spring frosts. Can be pruned hard every year, as they bear on the new growth each season. Late kinds color early, and are best left on tree till late in Autumn, for, if picked too soon, do not develop their best flavor.

Dia Dia Maru.—Large, rather flat, deep orange, seedless, irregular bearer, late.

Haycheya.—Very large, heart-shaped, vermilion, yellow flesh, fine flavor, irregular bearer, early.

Nitaro—A beautiful color, flat, square-shaped fruit, similar to Dia Dia Maru.

Tenanaschi (Seedless).—Large, heart-shaped, yellowish red, prolific, the earliest and one of the best,

Tsuno Marghari—Good bearer, fair-sized fruit, late.

Hayakume.—Very large, round, vermilion, flesh brownish, rich, late.

Kurokumo.—Large, almost round, yellow, good cropper, late.

Yemon (Cross Bun).—Large, rather flat, yellow, flesh orange, seedless, good bearer, the best market sort, seldom affected by fruit fly, very late.

NUTS.

Commence bearing the 3rd-10th year after planting.
2/- each; 20/- per dozen (where not otherwise priced).

Thrive best in deep, rich, free, well-drained soils, and, for the first two seasons after planting, we recommend regular watering.

Cheri Moyer (or Custard Apple).—A delicious tropical fruit, succeeds well in warm and sheltered situations; rough fruited, easily grown.

Chestnut (Japanese Tamba). — Large, bears early, makes a fine tree.

Chestnut (Korean). — Medium, shell breaks easily, good grower.

Chestnut (Spanish) (Castanea vesca).—The well known Sweet Chestnut. A fine shade tree, attains a great age and enormous size, starts bearing about the sixth season of planting.

Queensland or Popple (Macadamia Ternifolia).—Medium, hard shell, fine flavor, fairly hardy, good bearer, evergreen.

Pecan Nut (Carya Oliveriformous).—A quick-growing tree, comes into bearing at about 8 to 10 years, fruit 1½ inches long, borne abundantly.

Walnut, English (Juglans Regia).—Large, common, well known.

Walnut, Japanese (Juglans Sieboldi).—Large, hard shelled, good flavor, heavy bearer.

Walnut, Japanese (Juglans Cordiformus).—Large, hard-shelled, good bearer, early fruiting.

POMEGRANATES.

Commence bearing 3rd-5th year after planting.
Price: 1/6 each; 15/- dozen.

Thrive best in good, free soils in temperate climates. Hardy, deciduous shrubby tree, with extra large handsome fruits. In many places the fruit is highly esteemed for its medicinal poperties. Plant 10 to 15 feet apart; require moderate pruning to produce regular crops.

Common.—Large, bright crimson, rather astringent flavor, fair bearer.

Papershell.—Large, bright crimson, sweet flavor, thin skin, good bearer.

LOGANBERRIES.

Commence bearing 1st-2nd year after planting.
Price: 9d. each; 8/- dozen.

The most suitable of the berries for climate, fruiting in early Summer; fast growing. Thrive best where soil is rich, and moisture abundant, but, with reasonable attention, will thrive almost anywhere. Being a raspberry Hybrid, the most appropriate treatment seems to be to train young runners every year, and to cut away old growth that has finished fruiting. Plant 6 to 10 feet apart.

Black Fruited.—Large, long, blackberry flavor; prolific, thorny, vigorous.
Red Fruited.—Large, long, crimson; raspberry flavor; prolific, spiney growth.

RASPBERRIES.

Commence bearing 1st-2nd year after planting.
Price: 6d. each 5/- dozen.

Require a moist location and cold climate to do real well. Plant 2 to 4 feet apart, in rows 5 to 6 feet apart, and cut canes out when they have finished fruiting. Can supply varieties in Red and Yellow.

CITRUS FRUITS.

We are large growers of Citrus Trees and this year our stock is exceptionally good. All our trees are grown in virgin soil, and consequently have wonderful fibrous roots, good straight stems, with well-shaped heads. Our stock comprises all the leading lines of oommercial varieties of Lemons, Oranges, Mandarins, Grape Fruit, etc.

STOCKS.—For stiff subsoils and poorish lands, and quickest returns, Lemon Stock is undoubtedly the best. Orange stocks are deeper rooting, and for loamy subsoil, or where roots can go deep, may be successfully used. On this stock trees grow slower the first few years; but if soil suits them they mostly recover later on.

PLANTING.—Best time for autumn planting is February and March, and if weather is mild, early in April may do; but if weather is moist enough, the earlier planted the better the result, as cold weather is unsuitable, particularly in heavy soil or frosty places. August and September—or later, if moist enough—are best for spring planting. When planting Citrus trees we prefer, in mild weather, to leave the trees unpruned, but if weather is dry, or high winds prevail, it is best cut back, and in extremely dry wind cut all the leaves off, too, and cover the barrel loosely with grass, bagging or paper to protect it. By doing so you can often get good results under adverse conditions. Leaves falling spontaneously after planting is mostly a good sign, but when leaves remain on and wilt they should be cut off. For October or later planting, we recommend cutting all leaves before planting.

PRUNING.—Citrus trees in their early years require little or no pruning beyond occasionally shortening shoots of excessive growth that would if unchecked tend to make the tree lopsided. Some of the inner growth of excessively grown trees may be with advantage thinned out.

Co-operative Bud Selection Society Ltd.—Ideals and Activities.

For some years it has been recognised that in most orchards there are trees that rarely produce sufficient fruit to be payable, whilst other trees are more constant producers of good quality and payable crops. So, with the view to enabling nurserymen to supply trees of the most productive and remunerative standards to planters, the above society was formed under the aegis of the Department of Agriculture, and consists of representative fruit growers and nurserymen.

The Society DOES NOT AND CANNOT make profits, but merely exists to improve the fruit-growing industry by making available for budding, selective buds from special trees of the best types of quality fruit and reputed good bearing habits only. Trees from such buds should undoubtedly be more profitable and appeal to all progressive orchardists.

We can supply a number of these trees in Washington Navel and Late Valencia Oranges, Marsh's Grape Fruit and Eureka (Sweet Rind) Lemons at a small additional cost.

ORANGES.

Worked on Citronelle Lemon Stocks; commence bearing 2nd-4th year after planting.
Price: 1/9 each; 18/- dozen.

Golden Nugget Navel.—Large, pale yellow, smooth, thin skin, free from rag, seedless, weak grower, early.

Groverley Navel.—Large, yellow, flatish, not quite seedless, crops well, mid-season. The best Navel for poor soil.

Jaffa.—Medium, yellow, sweet, prolific, dwarf grower, early.

Joppa.—Very large, yellow, prolific, strong grower, hangs well, mid-season.

Late Valencia.—Large, yellow, skin smooth and thin, good cropper, hangs till others are gone, the best late.

Lue Gim Gong—Large deep orange, thin skin, rich, juicy, good flavor, late.

Maltese Blood.—Medium, yellow, tinted red, blood-red flesh when ripe, dwarf grower, late.

Mediterranean.—Medium, long, yellow, good flavor, heavy bearer, moderate grower; requires deep, rich soil.

Paper Rind St. Michael.—Medium yellow, thin skin, good bearer, late.

Parramatta.—Large, yellow, sweet and juicy, prolific, strong grower, mid-season, good on poor soils.

Ruby Blood.—Medium, juicy, skin reddish yellow, red flesh, prolific.

Thompson's Navel.—Large, yellow, fine thin skin, early.

Washington Navel.—Very large, yellow, superfine quality, on poor shallow soil a shy cropper; should only be planted on deep, rich, preferably sandy loam or volcanic soil; early.

White Siletta.—Large, pale yellow, smooth skin, good cropper, early.

MANDARINS.

Worked on Citronelle Lemon Stocks; commence bearing 3rd-4th year after planting.
Price: 1/9 each; 18/- dozen.

Beauty of Glen Retreat.—Large, deep yellow, thin-skinned, rather tart here, heavy cropper, mid-season.

Early Imperial.—Medium, yellow, sweet, thin skin, medium grower, requires deep, rich soil. Very early.

Ellendale Beauty.—Very large, yellow, flatish, good quality, very smooth and showy, hangs well, late.

Emperor.—Very large, yellow, regular bearer, extensively marketed, mid-season.

Fewtrell's.—Large, yellow, sweet and prolific, early.

Jacob's.—Large, reddish yellow, thin-skinned, juicy, somewhat tart here, heavy bearer, early.

Late Emperor.—Very solid and skin firm; late, considered the best of all mandarins.

Oonshii (Satsuma).—Large, greenish yellow, fair quality, seedless, stands frost well, pendulous dwarf habit, early.

Parker's Special.—Of large size and excellent quality; ripens very early.

Scarlet.—Medium, reddish yellow, peculiar flavor, heavy bearer, early.

Thorny.—Medium, yellow, solid, flavor unsurpassed, good bearer, mid-season. Aged trees should be thinned and manured to get good size.

LEMONS.

Worked on Citronelle Lemon Stocks; commence bearing 2nd-4th year after planting.
Price: 1/9 each; 18/- dozen.

Common.—Large, yellow, sweet, rough skinned, hardy, early.

Eureka (Sweet Rind).—Large, yellow, good quality, thornless, not as strong grower as Lisbon, but a better summer crop.

Lisbon.—Large, yellow, juicy, prolific, largely cultivated, tree thorny.

Variegated.—Medium, fair cropper, leaves and fruit variegated, ornamental.

Villa Franca.—Medium, yellow, thin-skinned, good quality, few thorns, not as vigorous as Lisbon, but profitable for its summer crop on deep, rich soil.

MISCELLANEOUS VARIETIES.

CITRONS.

Worked on Citronelle Lemon Stocks; begin bearing 2nd-4th years after planting.
Price: 1/9 each; 18/- dozen.

Bengal Citron.—Extra large, round, pale yellow, for preserving and peel.

Knights.—Fruit large, oblong, thick skin, sweet; good for candied peel.

CUMQUATS.

Worked on Citronelle Lemon Stocks; begin bearing 3rd-4th year after planting.
Price: 1/9 each; 18/- dozen.

Round.—Small, yellow, hardy, very prolific, peculiar flavor.

Long.—Small, yellow, good bearer, peculiar flavor.

LIMES.

Worked on Citronelle Lemon Stocks; begin bearing 3rd-4th year after planting.
Price: 1/9 each; 18/- dozen.

East Indian.—Large and prolific.

Persian (or Sweet).—Large, roundish yellow, sickly sweet, prolific.

Tahitian.—Large, greenish yellow, juicy, nearly seedless, prolific.

POMELOWS, GRAPE FRUIT, OR SHADDOCKS.

Worked on Citronelle Lemon Stocks; begin bearing 3rd-4th year after planting
Price: 1/9 each; 18/- dozen.

Blood Shaddock—Excellent for preserving.

Java.—Large, yellow, pear-shaped, sub-acid, good bearer, young growth reddish.

Marsh Grapefruit.—Large, round, pale yellow, seedless, heavy cropper, good grower, best of all.

Thompson's Grape Fruit—A sport from Marsh's Seedless, has a pink colored flesh, good quality.

Triumph Grapefruit.—Medium size, peel smooth, clear, thin and fine-grained, with few seeds; very heavy, juicy, and no bitter flavor in the juice; one of the best.

SEVILLES (Or Bitter Oranges).

Worked on Citronelle Lemon Stocks; begin bearing 3rd-4th year after planting.
Price: 1/9 each; 18/- dozen.

Poor Man's Oranges.—Very large, round, yellow, very juicy, smooth skin, good marmalade sort, not a true Seville in flavor or growth.

Seville (Common).—Large, yellow, prolific, the market variety.

Seville (Flat).—Large, round, smooth, yellow, good bearer.

ROSES

Speciality, Well Grown and Packed, and True to Name.

We recommend that purchasers having limited knowledge of Roses, should leave the selection to us, stating whether good all round garden or exhibition kinds are required. In either case we will select the best varieties. Also please state distinctly whether it is standard, bush, or climbing plants you require.

SUBSTITUTES.—It is advisable to give a few extra names, as substitutes, in case any of those ordered are sold out. Towards the end of the season, this is particularly necessary. Kindly state if no substitutes are required.

H.P.—HYBRID PERPETUAL.—Chiefly spring-blooming, and sometimes in the autumn, not ever-blooming, but give a great wealth of flowers when in bloom. They are more hardy and resist frost better than the Teas. Invaluable for spring shows.

H.T.—HYBRID TEA.—Originated in a class between H.P. and Tea, but the various classes have been so intercrossed that it is now difficult in many cases to classify correctly. Everblooming and hardy.

M.—MOSS ROSES.—Only thrive to perfection in cold climates, mainly spring-blooming, and their beauty is the mossing of the buds before flowers are opened.

PER.—PERNETIANA.—Colors very intense, free flowering, growth strong in dry inland and cold mountain climates, but in warm humid climates inclined to die back. Very subject to Black Spot.

T.—TEA-SCENTED.—Mostly evergreen, very free, but more tender to frost and are not as hardy as the H.P.

A Few Hints on Planting.

SOIL.—Almost any soil will grow roses, but a deep, rich loam is the best, and the deeper it is broken up the better, and if available incorporate any animal manure at the time of preparing.

Newly-broken soil is often acid, or sour; but some lime worked into the ground some weeks before plantings corrects the acidity. Sandy soil requires regular manuring for roses to do real well.

POSITION.—Roses can be successfully grown where the location is not too much overshadowed. An open situation, but sheltered from strong winds, is best. Too much enclosure tends to mildew and weedy spindly growth. On stiff retentive soils drainage should be attended to.

UNPACKING.—Plants usually arrive in good order. Unpack, dip the roots in water, and then cover with a wet sack until planted. If plants should arrive dry, bury them in soil, and keep the spot wet for two or three days.

PLANTING.—Care should be taken at the time of planting, so as to get the proper effect from your Rose bed. Two feet apart is sufficient for the weaker varieties, while a vigorous grower should be given twice that space. Holes should be dug large enough to allow the roots to be well spread out, and deep enough so that the bud is just above the ground level. The ground should be moist at time of planting, and kept so until plant is well established. It is advisable that during the Summer months the ground should be kept well mulched. Almost any manure will suit roses, providing the plants are first well established.

PRUNING.—Select a few strong, well-ripened shoots (the number depending upon the size and age of the plant). These shoots should be short jointed and strong, and the nearer to the ground for dwarfs the better. All the unripened

wood and old weakly shoots should be cut away. The remainder should be cut back according to the strength of the shoots or variety; the stronger they are, the longer they should be left, care being taken to cut to an eye looking outwards. Climbers should have all exhausted and feeble wood removed, and where too thick thinned out, and the long leaders shortened, and the laterals cut back two or three eyes.

TIME OF PLANTING.—Roses can be planted any time when weather is moist; but the best time is from April to August (inclusive).

DISEASES.—Scale should be sprayed with a red oil preparation, while arsenate of lead will effectively kill all leaf eating insects. Mildew and Black Spot may be prevented by regular spraying of 1oz. sulphate of potassium to 1 gallon of water.

ROSES OF RECENT INTRODUCTION.

2/- Each; 20/- per Dozen.

Albert Maumene (Per.) — The inside of petals golden carroty red, shaded copper, while the exterior is red shaded orange yellow. Sweetly scented.

Crimson Glory (H.T.) — Large buds opening into well formed blooms of a deep vivid crimson. Vigorous growth and highly perfumed.

Elli Knab (H.T.)—Large blooms of bright rose, petals veined with vermilion.

Genius Mendel (H.T.) — Beautifully shaped fiery red bud, opening into a large flower of light red shaded orange.

Kurtz Scholz (H.T)— Bud opening into a large bloom with high pointed centre, of scarlet crimson. Vigorous growth and healthy foliage.

Leading Lady (H.T.)—Clear flesh pink tinted peach blossom rose, with a strong sweet scent. Flowers large and full. Growth vigorous.

Luis Brinas (H.T).—Flower is soft old rose, flushed with gold, vigorous and upright growth.

Madame Joseph Perraud (Per)—Very attractive and promising Rose. Long shapely buds, nasturtium buff with a shading of shell pink at edges of petals. Vigorous growth.

President Van Oost (H.T.)—Orange yellow bud opening to a large double golden yellow flower, carried on long strong stems, vigorous growth.

Rouge Mallerin (H.T.)—Brilliant red buds, opening to full flowers with high pointed centre. Vigorous and upright growth.

Warrawee (H.T.)—Long pointed buds clear rosy salmon, opening to a silvery pink, strong and vigorous growth.

William Moore (H.T.)—Very large full blooms of perfect shape, very sweetly scented. The color is carmine pink, shading to a deeper pink as the blooms age.

GENERAL ROSE LIST

Price: 1/3 each; 14/- dozen, packing included. Postage or freight extra.

Alexander Hill Gray (T.).—Large high-pointed centre, sulphur yellow, free, strong.

Ambassador (H.T.)—A salmon pink sport of Talisman with a decided orange base. The best of the Talisman sports.

America (H.T.).—Large, perfect form, long pointed buds, rose pink, fragrant, free, strong.

Ami Quinard (H.T.).—Semi-double flowers of a fine blackish garnet; long and finely shaped bud; sweetly scented.

Angele Pernet.—Color distinct, orange yellow shaded reddish apricot; blooms semi-double, vigorous growth.

Aspirant Marcel Rouyer (H.T.).—Vigorous erect growth, long buds, shapely flowers. Deep apricot tinted salmon.

Autumn (H.T.).—Wonderful combination of crimson, scarlet and yellow. Compact buds of good size. Splendidly shaped flowers, with good stiff petals.

Barcelona (H.T.).—Color deep carmine with black velvety shadings; bud long and pointed, carried on erect stem.

Betty (H.P.).—Large, not full, satin rose, tinted yellow, good show rose, vigorous.

Betty Uprichard (H.T.).—Med., salmon-pink, reverse glowing carmine, not full, free, vig.

Briarcliff (H.T.).—A sport from Columbia, identical in nearly every respect, but flowering more often.

Caledonia.—A pure white Hybrid Tea of splendid formation. We believe this to be the finest white H.T. yet raised.

Canary (H.T.).—Light golden yellow, edges before expanding lightly cerise flushed; full flower, bright clear canary.

Catherine Kordes (H.T.).—Buds long and pointed, opening to large blooms of ideal shape. The color is a most startling scarlet, with dark shade of crimson.

Chas. H. Rigg (H.T.).—Colour vermilion scarlet, shading into rose pink; excellent shape, vigorous growth, sweetly scented.

Chas. P. Kilham (H.T.).—Large, fine shape, color brilliant orange orient red, suffused with glowing scarlet, when open fades to brilliant Lincoln red; very free, mildew-proof foliage, vig.

Columbia (H.T.).—Medium large, peach-blow pink, fragrant, often mis-shapen,

Condesa de Sastago (Per.)—Blooms of a coppery red inside, and golden yellow outside.
best in Autumn, strong.

Comtesse de Castilleja (Per.).—Large, perfectly formed and perfumed, blooms of unique colorings, being orange flamed vermilion passing to coral as the flower expands, vigorous and mildew-proof.

Comtesse Vandal (H.T.).—Bud long and pointed, colour salmon to gold, and deep coral.

Countess of Gosford (H.T.).—Large, not full, salmon pink, very free, mildews badly, vig.

Cuba (Per.).—Buds scarlet, opening to orange scarlet or Lincoln red on the back of petals and the color on the inside of petals is a rich light velvety crimson.

Dainty Bess (H.T.).—Single, salmon pink, centre crimson and gold, decorative.

Daily Mail Scented (H.T.).—Rich deep velvety red with a scarlet sheen. The color quality is well maintained, while the flowers are richly scented.

Dame Edith Helen (Hybrid Tea).—Color glowing pink, large and full, perfect form, and opens well in all weathers.

David McKee (H.T.).—Color crimson carmine, strong erect stems, vigorous and hardy growth.

Dr. Hawksworth (H.T.).—Growth vigorous, color rich crimson, shading to deep maroon.

Duchess of Sutherland (H.T.).—Large good form, full, rose pink, vig.

Druschki Rubra (H.T.).—Strong grower, bushy and upright; foliage dark green and healthy. Flower large and cupped, color dark blood red and maroon; very fragrant.

Duchess of Wellington (H.T.).—Large, fairly full, long buds, saffron yellow, strong.

GENERAL ROSE LIST.—Continued.

Earl Beatty (H.T.).—Deep crimson, large, sweetly scented, free, vig.

Earl Haig (H.T.).—Large, globular form, reddish crimson, strong.

Edith Nellie Perkins (H.T.).—Color outside oriental red, shaded cerise and orange, inside salmon pink, changing to orange salmon, large flowers, fairly full, good form, sweetly scented, free and vigorous grower.

Editor McFarland (H.T.).—Vigorous and erect growth, flower large and beautiful form; color bright rose shaded salmon, and capucine red.

E. G. Hill (H.T.).—A dazzling scarlet, shading to a deeper pure red as it develops; producing long stems and good foliage.

Elegante (H.T.).—Large, fairly full, sulphur yellow, free, mildew-proof, vig.

Elizabeth of York (H.T.).—Color a rich shade of cerise pink; resembles a richly colored Sunny South.

Erik H. Jelm (H.T.).—Rose-pink, very large, exhibition rose; immune from mildew, very strong growth.

Ethel Somerset (H.T.).—Large, full, high pointed centre, coral pink, free, vig.

Etoile de Hollande (H.T.).—Medium semi-double, dark red, fair form, fragrant, free, strong.

Everest (H.T.).—Giant white rose, of perfect form; bold flowers carried erect on very strong stems.

Etoile de France (H.T.).—Large, crimson, sweetly scented, free, strong.

Fascination (H.T.).—Color rosy cerise, shaded yellow, growth vigorous.

Federico Cassas (H.T.).—Bud very large, long pointed, red; flower very large, semi-double, open, very lasting, fragrant, red and yellow, borne singly on long strong stems.

Feu Joseph Looymans (Per.). — Yellow and apricot well formed buds, opening to large full flowers; growth strong.

Felberg's Rosa Druschki (H.P.).—Color a wonderful pure brilliant pink, growth vigorous; a seedling of "Druschki."

Fontanelle.—Large yellow rose with immense petals and beautifully formed flowers. Good grower.

Frau Karl Druschki (Snow Queen) (H.P.).—Large, well formed, pure white, free. Can also be grown as a climber. A good white.

Francis Scott Key (H.T.).—Large, full good form, perfumed, cherry red, strong.

Gaiety (H.T.).—Buds large, long, pointed; flowers large semi-double cupped, very lasting, borne on long stems, color orange, Indian red, and silver.

General Gallieni (T.).—Crimson pink shaded reddish purple, centre rosy flesh.

General Macarthur (H.T.).—Large, full, rather flat, rich crimson, shaded scarlet, sweetly perfumed, free, vig.

George Dickson (H.T.).—Large and full, velvety crimson, with scarlet reflexed tips, fragrant, mildews, very vig.

George Schwartz (T.).—Medium, not full, bright buttercup yellow, beautiful buds, free, mod.

Gipsy Lass (H.T.).—Rich scarlet crimson, with blackish shading; vigorous growth and perpetual bloomer.

Golden Dawn.—Color sunflower yellow heavily flushed with deep old rose. Growth moderately good, fair bloomer, with a rich tea scent.

Golden Ophelia (H.T.).—Medium, perfect form, golden yellow, free, vig.; one of the best garden yellows; lasts well.

Gorgeous (H.T.).—Orange yellow with coppery shadings, good exhibition variety, subject to mildew.

Grenadier (H.T.).—Brilliant currant-red, shaded scarlet; bud long and pointed.

Grenoble (H.T.).—Scarlet red blooms of good form, very free flowering.

Gruss an Teplitz (H.T.).—Medium cup shaped, bright crimson, very showy, good garden rose, free, vig.

Gustav Grunerwald (H.T.). — Large, fairly full, good form, carmine pink, very free, fragrance strong.

Gwen Nash (H.T.).—Large, semi-double loose, cyclamen pink, free, vig.

Hilda (H.T.).—Very large flowers, globular, slightly fragrant, bright carmine.

Hadley (H.T.).—Large, full, of good shape, dark red, very free, fragrant; the best all-round garden red to date, vig.

Hawlmark Crimson (H.T.).—Large, semi-double, intense blackish crimson, very showy, free; the best of this class, vig.

Heinrich Wendland (Per.).—Deep golden yellow, with rich nasturtium red in inner face of petal; pointed buds opening to large blooms.

GENERAL ROSE LIST.—Continued.

Hoosier Beauty (H.T.).—Large, full, perfect form, dark crimson, with blackish veinings, very fragrant, free, strong; one of the best.

Hugo Roller (T.).—Medium, of good shape, lemon yellow, edged carmine outer petals, free, mod.

Irish Elegance (T.).—Large, single, bronzy orange, very free, good in winter, vig.

Imperial Potentate (H.T.). — Splendidly shaped buds, opening to well-formed large, double flowers of glistening rose pink.

Irish Fireflame (T.).—Large, single, buds orange, splashed orange crimson, free, very fine, vig.

Isobel (H.T.).—Large single, carmine, flushed orange, free, dies back, strong.

Joanna Hill (H.T.).—The blooms are large, clear yellow, and hold color, very floriferous.

Jonkheer, J. L. Mock (H.T.).—Largest size, good form, carmine, changing to imperial pink, lasts well when cut, fragrant, long stems, vig.

Joyous Cavalier (H.T.).—Semi-double to double, of splendid shape in bud form, opening to loose blooms, which keep color.

J.K.B. Roos (H.T.).—Color pale reddish lilac shaded salmon flesh; flowers large and full, vigorous and upright growth.

Julien Potin (Per.).—A rich golden yellow that becomes more intense as flower changes, large, full fine form, sweetly scented.

K. A. Victoria (H.T.).—Large, full, perfect form, white, shaded cream, one of the best creams available, strong.

K. of K. (H.T.).—Large, semi-double, vivid crimson scarlet, stiff petals, lasts well when cut, free, showy, vig.

Kidwai (Per.)—Color yellow shaded and striped with orange, fading to sulphur yellow; growth only moderate.

Konigan Luise (H.T.).—Very large and full, perfectly formed flowers similar to K.A. Victoria.

Kootenay (H.T.)—Color creamy white, very full blooms, vigorous grower.

Korovo (H.T.)—Clear salmon pink, double blooms of good shape and freely produced.

Lady Hillingdon—Flowers semi-double, buds most attractive, a good grower and splendid bloomer; color a rich yellow.

Lady Helen Maglona (H.T.). — Color bright crimson red with blackish markings, lightening with age to scarlet red, perfectly shaped bloom, vig.

Lady Roberts (T.)—Medium, full, of good shape, color apricot shading to coppery, free, strong.

La France (H.T.)—Large, pale rose, reverse of petals deeper, very fragrant, free, prune lightly, mod.

Laurent Carle (H.T.)—Large, fairly full, brilliant velvety carmine, free, fragrant, one of the best reds, strong.

Lord Charlemont (H.T.)—Large, full, crimson, deepening to carmine crimson, vig.

Lord Rossmore (H.T.).—Large flowers of creamy white, growth strong, free and upright, a garden or exhibition variety.

Lorraine Lee (Hyb.)—Richest salmon; very strong grower; free flowering, at its best in cooler months.

Los Angeles (Per)—Large, fairly full good form, flame pink, toned golden yellow, free, strong.

Mary Hart (H.T.)—A red sport of Talisman and like the parent very variable.

McGredys Triumph (H.T.) — Geranium red, heavily flushed with orange. Blooms are large and of perfect form.

McGredys Wonder (Per.)—Long pointed blooms, of glowing coppery orange, fading to old gold.

Mdm. Abel Chatenay (H.T.)—Large good form, flesh rose shaded salmon, very free, one of the best garden roses, vig.

Mdm. Butterfly (H.T.).—Large, good form, pale pink shaded orange apricot, fragrant, free, strong.

Madame Edouard Herriot (Per)—Medium, not full, rich coral red, passing to prawn red; very free; mod.

Madame Jules Grolez (H.T.).—Large. fine form, brilliant China rose, free, low spreading growth, mod.

Madame Nicholas Aussel (Per.) — Color copper and orange; flowers splendid size and shape.

Mdm. Pierre S. du Pont (H.T.)—Vigorous growth, foliage clear green, flower large, full and sweetly scented. Color intense yellow shade ochre.

GENERAL ROSE LIST.—Continued.

Mdm. Jules Bousche (H.T.)—Color is creamy white, softly tinted flesh pink. Very free flowering.

Madame Louis Lens (H.T.).—Pure white flowers, perfectly formed; strong growth and healthy green foliage.

Madame Segond Weber (H.T.)—Large, good form, rosy salmon, very free, good, strong.

Malar Ros (H.T.).—Color deep crimson, strong and upright growth; flowers large and full, opening well.

Maman Cochet (T.)—Large, very full, fine form, rose, shaded salmon, free, mildew proof, one of the best, vig.

Margaret McGredy—Color orange scarlet. Flowers large and full, of good form.

Mary Countess of Ilchester (H.T.) — Deep carmine, of great size and well-shaped petals.

McGredy's Scarlet (H.T.)—Color light reddish cerise, of quite an attractive shade.

Miss Australia (H.T.)—A delicate shell pink, blooms large and of good form, growth only fair.

Mrs. Anthony Spalding (H.T.)—Shapely blooms of strawberry red flushed orange. Growth strong.

Mrs. George Geary (H.T.)—Rich deep pink, flowers of excellent shape, vigorous growth.

Mrs. Sam McGredy (Per.)—Color coppery apricot, changing to old gold and salmon; growth medium.

Mrs. W. E. Lenon (H.T.)—Large, long pointed buds opening to semi-double flowers, which are carmine crimson and very fragrant. A good grower and continuous bloomer.

Mevrouw G. A. Van Rossem (H.T.)—A seedling from Souv. de Claudius Pernet, with gorgeous large flowers on stiff stems, full and beautifully formed, sweetly scented.

Molly Sharman Crawford (T.)—Large, full, good form, white, free, lasts well when cut, strong.

Mrs. A. R. Waddell (H.T.) — Medium, semi-double, reddish salmon, nice bud, free, strong.

Mrs. Bryce Allen (H.T.)—Large, fine form, carmine rose, moss rose perfume, fairly free, strong.

Mrs. Charles J. Bell (H.T.)—A shell-pink sport of Radiance, a dainty color, but fades easily.

Mrs. Dunlop Best (H.T.)—Reddish apricot, with coppery yellow base; good shaped buds opening into fairly large semi-double, sweetly scented flowers.

Mrs. Charles Lamplough (H.T.)—Large, fine form, soft lemon yellow, opens badly at times, strong.

Mrs. Foley Hobbs (T.) — Large, good form, ivory white, tinged pink, weak stems, show rose only, mod.

Mrs. George Shawyer (H.T.) — Very large, well formed, full, clear rose, mildews badly, strong.

Mrs. Harold Brocklebank (H.T.)—Large, full, good form, creamy white flushed pink, free, very good, vig.

Mrs. Herbert Stevens (T.)—Large, long pointed bud, not full, white, very free, one of the best garden whites, lasts well, vig.

Mrs. H. R. Darlington (H.T.) — Very large, full, fine form, creamy white, strong.

Mrs. H. Winnett (H.T.) — Large, full, perfect form, bright red, fragrant, strong.

Mrs. Tom Smith (H.T.)—Color glowing cerise. A splendid rose of thorough distinctiveness and genuine merit. Growth vigorous and erect.

Mrs. W. J. Grant (Belle Siebrecht) (H.T.)—Large, not full, deep pink, free, good snow rose, mod.

My Maryland (H.T.)—Large, not full, salmon pink, long buds, very free, strong.

Natalie Bottner (H.T.)—Large, good form, creamy white, opens poorly at times, free, strong.

Nigrette (H.T.)—The darkest rose in commerce, but unattractive and cannot be recommended.

Oliver Mee—Color deep salmon changing to deep salmon-pink, large sized flower, semi-double.

Ophelia (H.T.)—Large, good shape, fairly full, salmon flesh, fragrant, free, strong.

Oswald Sieper (H.T.).—Beautiful white with sulphur yellow centre; well formed, large and full, strong bushy growth.

GENERAL ROSE LIST.—Continued.

Padre (H.T.)—Large, semi-double, coppery scarlet, loose, free, vig.

Paul Neyron (H.P.)—Extra large, full dark rose, fragrant, very hardy, vig.

Penelope (T.)—Medium, high pointed centre, outer petals red, centre creamy, white, mildews badly, poor.

Perle des Jardins (T.) — Large, full, canary yellow, free, mod.

Phoebe (H.T.)—Large, not full, perfect form, creamy white, deeper in the centre, strong.

Picture (H.T.) — Medium size blooms with clear rose pink petals, very fine shape, and free flowering.

Portadown Fragrance (H.T.) — Large, full, perfect form, brilliant orange salmon pink. Vigorous.

President Jac Smits (H.T.)—A brilliant dark red; buds long and pointed. Flowers large, semi-double, carried on long straight stems.

President Herbert Hoover (H.T.) — A gorgeous combination of cerise, bronze and yellow; a first class grower with a most beautifully formed bloom.

President Macia (H.T.).—Color rose meyron red, flowers large and full, growth vigorous.

Prince Camille de Rohan (H.P.)—Large, good shape, dark maroon, shaded velvety black, free, one of the best dark H.P.'s, vig.

Radiance (H.T.)—Large, fairly full, globular form, clear rose, reverse of petals carmine, fragrant, very free, mildew-proof, good garden pink, vig.

Rapture (H.T.)—A sport of Mdm. Butterfly, but color somewhat deeper pink.

Red Letter Day (H.T.)—Large, semi-double, brilliant scarlet crimson, very free and showy, very vig.

Red Radiance (H.T.) — Large, globular shape, fairly full, pure red, fragrant, very free, vig.

Rev. F. Page Roberts (Per.)—Large, full, well formed, golden yellow, veined bluff, free, strong.

Rhea Reid (H.T.)—Large, good form, red, free, one of the best, strong.

Richard E. West (H.T.) — Perf. form, large and full, cadmium yellow, paler on reflex, free, vig.

Roger Lambelin (P.)—Large, each petal edged with white band, the rest being dark crimson, unique, strong.

Roselandia (H.T.)—Large, fine form, rich golden yellow, free, vig.

Rose Marie (H.T.)—Large, fairly full, good shape, clear rose pink, fragrant, free, vig.

Ruby Manwaring (H.T.)—Blooms are of good form and richly colored velvety scarlet; opening a rich rosy cerise.

Sensation (H.T.)—Large, full, velvety crimson, shaded dark crimson, fine form, free, fragrant, blues badly, vig.

Sergent Ulmann (H.T.).—Color crimson fading to a clean red. Extra strong grower with good foliage.

Shot Silk (H.T.)—Cerise overshot salmon orange, flushed rose, immune from mildew, free, medium, fairly full, vig.

Sir Henry Seagrave (H.T.) — Primrose yellow with chrome base, large well-shaped bud, vigorous and hardy growth.

Souvenir (H.T.)—Another sport of Talisman, buds of a deep golden yellow, opening to clear yellow.

Souv. de Claudius Pernet—Large, full, sunflower yellow, free, strong.

Souvenir de George Pernet (Per.)—Large, full, Oriental red, shaded yellow, strong.

Souv. de H. A. Verschuren (H.T.)—Cadmium yellow, very large, of exquisite form, growth similar to Sunburst, but much thicker, larger and stronger.

Souv. de Madame Boullet (H.T.)—Large, full, cadmium yellow, long pointed bud, free, vig.

Souvenir de Therese Levet (T.) — Medium, splendid form, very full, deep crimson, shaded maroon, free, strong.

Souvenir of Stella Gray (T.) — Small, full, orange splashed apricot, copper and salmon, nice buds, free, mod.

Star of Queensland (H.T.)—Large, fairly full, dark crimson, scented, free, strong.

Sunburst (H.T.)—Large, fairly full, yellow, with orange centre, strong.

Sunny South (H.T.)—Medium, semi-double, soft pink, flushed carmine, very free, very good decorative, vig.

Talisman—A very fine and attractive rose that is quite distinct. Scarlet, pink, copper and gold are all to be found in the glorious shadings. Splendid vigorous habit and growth. Free flowering. Fine flowers and buds. Large leathery foliage.

Una Wallace (H.T.)—Large, formation and substance faultless, cherry rose, perfumed, free, vig.

Venus (M.) — Medium, bright red, mossed, mod.

Viktoria Adelheid (H.T.).—Bud thick, oval, opening slowly to a very large full bloom. The color is deep golden yellow, strong, upright, and free blooming.

Warrior (H.T.)—Large semi-double, buds blood-red, flowers scarlet crimson, very free, good winter flowers, vig.

Wilhelm Breeder (Per.)—A glowing coppery orange at its best, but a listless yellow at other times.

White Maman Cochet (T.)—Large, very full, good form, creamy white, tinted pink, one of the best, vig.

White Ensign—The flowers are very full and pure white. Growth vigorous.

Yves Druhen (H.T.)—Medium, fairly full, somewhat flat, dark velvety red, fragrant, free, mod.

DWARF POLYANTHA.

Price: 1/3 each; 14/- dozen (packing included). Postage or freight extra.

Small flowers, mostly flowering in large trusses or clusters, very free; suitable for borders, edging, and massing, where a blaze of color is required.

Alice Amos.—Single flowers of a beautiful cherry pink with white eye borne in large trusses, growth vigorous.

Baby Betty—The color in bud stage is yellow with a reddy tint, opening to a delicate clear rose with pale centre; free flowering and fragrant; dark green foliage.

Borderer—Large, double, shades of pink, copper and amber; very free. Dwarf growth.

Britannia—The flower is rich crimson with white centre and yellow stamens; very striking and effective; growth vigorous and erect.

Cecile Brunner—Small, full rose, shaded pink, free.

Ellen Poullsen—Large, full, semi-double, rose pink, very free, good.

E. N. Ward—Soft warm pink, something tipped with carmine.

Fireglow—Brilliant vermilion red, shaded orange. The most vivid red in Polyantha Roses; good substance; sure to be a great favorite.

George Elger—Medium, good form, full, golden yellow, very free.

Goldlachs (Orange Perfection)—Color golden salmon produced in large trusses; syn. Orange Perfection.

Ideal—Large, scarlet crimson, fairly free, burns in hot sun at times.

Gloria Mundi—The color is a glowing orange, and is so outstanding in every way that, whether it burns or not, it is bound to be in great demand for many years to come.

Jacques Carroy—Moderate dwarf habit; floriferous, covered with clusters of 15 to 20 flowers, fine carmine color, slightly velvety, shaded in centre; very effective; stands well in all weathers.

Jeannie Soupert—Delicate white, small, and regular, perfect form. Produced in large and very compact clusters. Very free.

Karen Poulsen—Color brilliant scarlet, single flowers produced in clusters.

Lady Reading—A red sport from Ellen Poulsen, with a richer color.

Leonie Lamesch—Copper red shaded yellow. Extra good grower.

Maman Turbat—China rose, shaded peach; this is a very beautiful variety.

Marinus—A striking bright red color that is unique amongst Polyanthus. It does not discolor in rain or sunshine.

Miss Edith Cavell — Large, semi-double scarlet crimson, burns at times; the best dark red available.

Mrs. R. M. Finch—An attractive seedling from Orleans Rose, producing large clusters of rosy pink flowers.

Orleans Rose—Large, semi-double, carmine pink, white centre, very free, bushy habit, the best of this class.

Paul Crampel—This variety flowers outside with the same deep orange-scarlet color as the kell-known geranium bearing the same name. A startling new variety which will outclass all others of similar shade.

Perle D'Or—Nankeen yellow; buds deep apricot; medium size and very full; very constant and free bloomer; vigorous grower.

Rufus—Crimson, with white stripe on the outer petals.

Salmon Spray—Color rich salmon pink, borne on sprays; sweetly scented; mildew-proof foliage; growth vigorous.

Sparkler—A very striking Polyantha, being a very rich red, borne in clusters; growth good, and free flowering.

Tip Top—Cerise with yellow base, lovely miniature buds of perfect form.

CLIMBERS.

Price: 1/3 each; 14/- dozen (packing included). Postage or freight extra.

The true climber throws long shoots, but flowers chiefly on the laterals, which are shoots from the leading shoots. The main flowering period of Climbers is in the spring, but sometimes they give a fair blooming in the Autumn if the weather is favorable. Climbers seldom flower the first year after planting, but usually make long growths. The prefix Climbing is only used when there are dwarf roses of the same name; and many of these climbing sports are often irregular in their climbing habit. Those marked Pillar are not as strong growers as the others.

Australian Beauty (H.P.)—Large, rather flat, deep crimson, blues at times, fine foliage and perfume.

Blackboy (H.T.)—Large, semi-double, blackish crimson, shading maroon, sweetly scented, mildew-proof, good.

Clb. Mrs. W. J. Grant (Belle Siebrecht) (H.T.)—A climbing sport of Belle Siebrecht, pillar.

Clb. Columbia (H.T.)—A climbing sport from the well known dwarf.

Clg. Daily Mail (H.T)—A wonderful climbing variety from the parent dwarf of the same name.

Clg. F. K. Druschki (H.T.)—Snowy white, extra strong grower; free bloomer; blooms large and of perfect form.

Clb. General Macarthur (H.T.)—A vigorous climber of Gen. Macarthur.

Clb. Geo. Schwartz (T.)—Very free, and flowers well in winter, pillar.

Clg. Talisman (H.T.)—A climbing sport of the popular dwarf variety.

Climbing Golden Ophelia (H.T. Hoge)—A fine climbing sport of the dwarf variety. The flowers are perfect in shape, and will prove a welcome addition to the yellow climbing varieties.

Climbing Dame Edith Helen (H.T.)—A climbing sport of the well known dwarf variety.

Climbing Etoile de Hollande (H.T.)—Climbing sport of dwarf variety.

Climbing Lord Charlemont (H.T.)—Strong climbing sport of the well known bush variety.

Climbing Hugo Roller (T.)—A very vigorous climber of the well known dwarf variety.

Climbing Lorraine Lee (T.)—Vigorous climbing sport from the dwarf variety, producing terracotta pink flowers.

Climbing Mrs. Chas. J. Bell (H.T.)—Climbing sport of the popular dwarf variety.

Climbing Mrs. Dunlop Best (H.T.)—Vigorous climbing sport of the dwarf parent.

Climbing Penelope (T.)—Strong climbing sport of the dwarf parent.

Clg. Hadley—A genuine climber, very vigorous, a very welcome addition to our climbing varieties, and retaining all the good qualities of the dwarf variety.

Clb. Hossier Beauty—A climbing sport of the dwarf.

Clb. Irish Fireflame (T.)—A climbing sport of the dwarf of the same name.

Clb. K. A. Victoria (H.T.)—Free blooming, irregular climber, pillar.

Clb. Laurent Carle (H.T.)—A strong climbing sport of the dwarf.

Climbing Madam Butterfly (H.T.)—A vigorous climbing sport from the dwarf, and supposed to be improved in color, petal, age.

Clb. Lady Hillingdon (T.)—Deep orange yellow, free and good, strong climber.

Clg. Souvr. Mdm. Boulett (H.T.)—Dark cadmium yellow, large and fairly full, a true climber.

Clb. Los Angeles (Per.)—A strong climbing sport of the dwarf.

Clb. Mdm. Segond Weber (H.T.) — A strong, vigorous climber of the dwarf.

Clb. Mad. Edouard Herriot (Per.)—A valuable and fixed climbing sport from this well known rose.

Clb. Mrs. G. Shawyer (H.T.)—A very strong growing climber of the dwarf variety.

Clb. Mrs. H. Stevens (H.T.)—Very vigorous, sport from Mrs. H. Stevens.

Mermaid — Flowers sulphur yellow, single, continuous bloomer, foliage very heavy and a beautiful green.

Clg. J. J. L. Mock—A climbing sport of the dwarf variety, producing flowers identical with the parent.

Clb. Ophelia (H.T.)—A strong climbing sport of the dwarf, pillar.

CLIMBERS—Continued.

Clg. Radiance—A splendid climber, a sport from the popular dwarf variety.

Clg. Red Radiance—A very vigorous climbing sport from the well known popular dwarf variety.

Clg. Perle des Jardins (T.)—A climbing form of this popular rose, pillar.

Clb. Pink M. Cochet (T.)—A strong climbing sport of the dwarf.

Clg. Rose Marie—A true climbing sport from the popular and wonderful rose, "Rose Marie." Growth very vigorous, and mildew proof; an acquisition to the climbing varieties.

Clg. Souv. de Claudius Pernet—A very valuable climbing sport, growth most vigorous. Blooms sunflower yellow.

Clg. Souv. de Georges Pernet—A climbing sport of vigorous growth and very free flowering; blooms equal to parent variety.

Clb. Souv. de Therese Levet (T.)—A climber from the dwarf of that name.

Clg. Souvr. H. A. Verschuren (H.T.)—A very welcome addition to the yellow Climbers, having all the good qualities of the dwarf parent of the same name.

Clg. Shot Silk (H.T.)—This magnificent climber is the best introduction for many years. It fills a new color in climbers, and can be best described as a rich salmon, orange, cerise veined buttercup yellow, at times overshot with orient shades. Free in blooming in both Summer and Autumn, with a wonderful glossy green foliage.

Clb. Sunburst (H.T.)—A strong climbing sport of the dwarf.

Clb. White Maman Cochet (T.)—A strong climbing sport of the dwarf, good.

Cloth of Gold (N.)—Large, good form, sulphur yellow, centre deeper, mildews badly at times, vigorous.

Countess of Stradbroke (H.T.)—A vigorous growing free blooming climbing rose of exceptional merit and worthy of a position besides varieties like Blackboy and Miss Marion Manifold.

Clb. White L. Tarquin (Glorie de Blanches)—Large, pure white, free.

Flying Colors—A vigorous climber, one of the first to bloom, single flowers, color cerise.

Fortune's Yellow (N.)—Large, semi-double, bronzy yellow, shaded rose, pillar.

Kitty Kininmonth—Bright carmine rose color, semi-double decorative flowers of large size.

Marechal Niel (N.)—Large, full, excellent form, golden yellow, fragrant, free, weak stems.

Noella Nabonnand (T.)—Extra large, semi-single, deep crimson, sweetly scented, showy.

Sachsengruss (H.P.)—Extra large, full, good form, flesh shaded rose.

Miss Marion Manifold (H.T.) — Very full good form, velvety scarlet, crimson, perfumed, gets bare at base at times. Good.

Nora Cunningham (H.T.) — Semi-double flowers of a beautiful clear pink, suitable as a pillar rose.

Sinica Anemone—Large, single, silvery pink, deepening to bright rose, pillar,

Souvenir de Madame Leonie Viennot (H.T.)—Large, semi-double, China rose, shaded yellow, free, good foliage.

William Allen Richardson (N.)—Small, full, good form, deep orange, free, flowering in trusses, pillar.

CLIMBING, BANKSIA, POLYANTHA, WICHURIANA, ROSES AND THEIR HYBRIDS.

Price: 1/3 each, 14/- dozen, packing included. Postage or freight extra.

Mostly small flowers, flowering in large trusses or clusters, spring blooming only.

American Pillar (W.)—Large, single, rich pink, white eye, large trusses, mildew proof, showy.

Bonfire (Hy. Wich)—Very vig. climbing growth, with light green foliage, elongated clusters of 20 to 25 double flowers. Color dazzling scarlet; a very early variety.

Blaze (H.W.)—Is almost identical with Paul's Scarlet Climber.

Cecile Brunner (P.)—A climbing form of the dwarf sort, pink, fine bud.

Clb. Orleans Rose (P.)—A climbing sport from the dwarf, free and perpetual.

Crimson Rambler (P.)—Large, dazzling crimson, flowers in clusters, mildews badly.

Dorothy Perkins (W.)—Small, full, shell pink, sweetly scented, one of the best, mildews.

Emily Gray (W.)—Large, fairly full, golden yellow, glossy foliage, mildew proof, the best yellow available.

Excelsa (W.)—Large, full, bright scarlet, glossy foliage, large trusses, mildew-proof.

Fortunii (B.)—Large, white, sweet, mildew-proof.

Hiawatha (W.)—Large, single, brilliant scarlet, mildews, showy.

Lutea (B.)—Small, fairly full, buff, large trusses, hard to propagate, mildew-proof.

Paul's Scarlet (H.W.)—Large, semi-double, vivid scarlet, crimson, free.

Sanders White—The best white double variety.

Shower of Gold—A very vigorous grower, throwing large laterals, which are covered with small golden yellow flowers.

Sodenia (W.)—Large, full, bright carmine, large clusters, free, mildew-proof.

Other States 2/6 Extra.

You can make your own selection from our Catalogue. Only quality trees will be sent (medium size trees if by post).

Ornamental Trees and Shrubs

GENERAL LIST.

PLANTING.—All plants grown in pots should be planted about the same depth as soil in pot, or if dry, an inch or two deeper; water directly on ball of earth. Although the surrounding soil may be moist, yet until the plant makes new roots, it cannot draw any nourishment from the soil around it. Plants are usually despatched in paper pots to save weight and packing. The distance apart for planting depends largely on whether individual specimens are required or whether plants are wanted for mass effect, which means closer planting. The letter E means Evergreen; D. Deciduous. The numbers give the average height in feet at full growth; in very rich soil plants will grow larger, and in poorer soils, less.

ABELIA

Longituba, E.4—Soft rose pink, tubular flowers 1 6
Rupestris, E.4—Pink and white flowers 1 6
Uniflora, E.4—Pink with large orange blotch 1 6

ABUTILON (Chinese Lantern)

Boule de Niege (Ball of Snow) E. 6—Pure White 1 6

Bispinosa Grandiflora, E. 6—Cape plum, strongly scented white flowers 1 6

ARONIA

Arbutifolia, D. 4—A dwarf growing deciduous shrub. Valued for the colored foliage and bunches of red berries 2 0

ARTEMESIA

Argenta, E. 4 — Silvery foliage, yellow flowers 1 6

AUCUBA

Japonica Aurea, E. 6—The Gold Dust Tree. Golden variegated foliage 1 6

AZALEAS

Can supply named varieties, from 1 6

BAUERA

Rubioides, E. 3—A pretty shrub bearing small pink flowers 1 6

BAUHINIA

Alba, E. 12 — White flowering tree 1 6

Purpurea, E. 12 — Large rosy purple flowers 1 6

BEGONIA

Carnea, E. 8—Large pale green leaves, rosy pink flowers 1 0

Corallina, E. 8—Leaves edged red, flowers rich scarlet 1 0

Credneri, E. 4 — Bronzy green leaves, pink flowers 1 0

Ingrami, E. 3—Medium sized shiny green foliage, bunches of pink flowers 1 0

Lucerna, E. 6—Large sprags of rich red flowers 1 0

Metallica, E. 4—A fairly large leafed sort, soft pink flowers .. 1 0

Smithii, E. 6—Bronze foliage, spotted white, pink flowers 1 0

BENTHAMIA

Fragifera, E. 12 — Himilayan Strawberry Tree, creamy pink flowers 1 6

BERBERIS

Sargentiana, E. 8—Yellow flowers, and beautiful autumn foliage .. 1 6

Thunbergii Atropurpurea, D. 4—Yellow flowers, with beautiful purple foliage, somewhat like the purple-leafed plum 1 6

Wilsonae, E. 4—Golden yellow flowers, followed by red berries in Autumn 1 6

BETULA

Alba, D. 30—Graceful tree with drooping habit. The leaves turn yellow in Autumn 2 0

BIRCH—See Betula.

BIRD OF PARADISE — See Poinciana.

BORONIA

Megastigma, E. 4—Sweet-scented Boronia 2 0

BOTTLE BRUSH — See Callistemon.

BRACHYCHITON — See Sterculia.

BRACHYSEMA

Lanceolatum, E. 4 — The Swan River Pea Bush 1 6

BROOM—See Spartium.

BROWALLIA

Jamiesoni, E. 6 — Orange and yellow blooms 1 6

BRUGMANSIA

Knightii, E. 10 — Large white flowers 1 6

BRUNFELSIA

Americana, E. 6—White flowers 2 0

Latifolia, E. 6—Lavender flowers with white eye 2 0

BRUSH BOX—See Tristania.

BUDDLEIA

Davidii, E. 10 — Dark purple flowers 1 6

Magnifica, E. 10—Dark purple flowers 1 6

Nanhoensis, E. 6 — Heliotrope, dwarf growing 1 6

Pink Pearl, E. 10—Soft mauve flowers 1 6

Salvifolia, E. 8—Pale lilac flowers 1 6

Veitchiana, E. 10—Flowers resemble English Lilac, strongly scented 1 6

BUXUS

Aurea Variegata, E. 2—Suitable for low specimens, or rockery planting 1 6

CALLICARPA

Chinensis, D. 10—Bunches of small rosy lilac flowers with yellow stamens 1 6

CALLISTEMON (Bottle Brush)

Acuminata, E. 8—Large scarlet blooms 1 6
Coccinea, E. 15—Scarlet blooms .. 1 6
Lanceolatus, E. 10—Scarlet 1 6

CALODENDRON (Cape Chestnut)

Capense, E. 40—Large flesh colored flowers 1 6

CALYCANTHUS

Floridus, D. 6—Fragrant, purplish brown flowers 1 6

CAMELLIA

Angelo Cochi—White striped rose. From 2 0
Aspasia—White, pink stripes. From 2 0
Bonomiana — White, occasionally marked pink. From 2 0
Candidissima—Large, pure white. From 2 0
C. H. Hovey—Dark crimson. From 2 0
Countess Callina—White. From.. 2 0
Great Eastern—Bright red, semi-double. From 2 0
Harriet Beecher Sheather — Salmon Pink. From 2 0
Isabella—White flowers. From .. 2 0
Metallica—Purplish red. From .. 2 0
Mrs. A. M. Hovey — Pink with white blotch. From 2 0
Prince Frederick William — Light pink. From 2 0
Red Pressi—Crimson 2 0
Red Waratah—Bright red 2 0
White Waratah—White with yellow stamens. From 2 0
Wrightii—Deep rose 2 0
Sasanqua—Can supply, single red, white. From 2 0

CAMPHORA (Camphor Laurel)

Officinalis, E. 50—One of the best evergreen for tall hedges .. 1 0

CAPE CHESTNUT—See Calodendron.

CAROB TREE—See Ceratonia.

CARYOPTERIS

Mastacanthus, D. 4—Blue flowers 1 0
Tangutica, D. 3—Clusters of fluffy lavender flowers 1 6

CASSIA

Artimisiodes, E. 6—Yellow flowers abundantly produced 1 0
Candolleana, E. 10—One of the best yellow flowering shrubs .. 1 6
Didymobotrya, E. 6—A very fine foliaged and strong growing cassia 1 6

CASTANOSPERMUM (Bay Chestnut)

Australis. E. 30 .. .. 1 6

CEANOTHUS

Conquete, D. 6—Light blue 1 6
Divaricatus, E. 10—Spring flowering blue flowers 1 6
Edwardsii, E. 6—Small shiny leaves, and heads of blue flower 1 6
Marie Simon, D. 4—A similar type to Glorie de Versilles 1 6

CEDAR—See Cedrus.

CELTIS (Nettle Tree)

Australis, D. 40 .. .. 1 6

CERASUS (English Laurel)

Lauro-Cerasus, E. 20 .. .. 1 6
Lusitanica, E. 15—Portugal Laurel 1 6

CERASUS JAPONICA (Japanese Flowering Cherries).

Apple Blossom, D. 10—Large semi-double clear pink flowers 2 0
Hizakura, D. 10—Semi-double rosy pink flowers 2 0
J. H. Veitch, D. 10—Rosy pink .. 2 0
Mt. Fuji, D. 10—Semi-double white 2 0
Seiboldtii Rosea Superba—Darker than J. H. Veitch 2 0

CERATONIA

Siliqua, E. 20—Carob Tree, or St. John's Bread 1 6

CERATOPETALUM (Christmas mas Bush)

Gummiferum, E. 30—Plants from 1 6

CERATOSTIGMA

Willmottiae, D. 30—A very beautiful blue flowering shrub 1 6

CERCIS

Siliquastrum, D. 20—Red 1 6

CESTRUM

Nocturnum, D. 8—Greenish white flowers 1 6

CHAMAELAUCIUM (Geraldton Wax Flower)

Uncinatum, E. 5—Requires well-drained position 1 6

CHERRY (Flowering) — See Cerasus.

CHERRY PIE — See Heliotropium.

CHIMONANTHUS

Fragrans, D. 6—Winter flowering shrub, yellow blooms exceedingly fragrant 1 6

CHINESE HAWTHORN — See Photinia.

CHINESE LANTERN — See Abutilon.

CHINESE RAISIN—See Hovenia.

CHOISYA

Ternata—A pretty white flowered dwarf shrub 1 6

CHORIZEMA

Cordata, E. 3—A free flowering dwarf shrub, a native of Western Australia 1 6

Ilicifolia, E. 3—Similar to previous variety 1 6

CHRISTMAS BUSH—See Ceratopetalum.

CISTUS

Sunset, E. 3—Large cerise pink flowers 1 6

CITHAREXYLUM

Subserratum, E. 30 — Uncommon tree, producing sprays of white flowers 1 6

CLERODENDRON

Ugandense, E. 6—Beautiful blue blooms, known also as "Butterfly Flower" 1 6

CLETHRA

Arborea, D. 5—Lily of the Valley Tree 1 6

CLIANTHUS

Puniceus, E. 6—New Zealand Glory Pea, pink 1 6

COPROSMA

Baueriana—Splendid hedge plant, glossy foliage 1 0

Baueriana Variegata, E. 6—Leaves heavily margined creamy yellow 1 6

CORAL TREE—See Erythrina.

CORNUS

Amomum, D. 10—Vigorous growing large shrub, inconspicuous white flowers, followed by blue berries 1 6

COTONEASTER

Francheti, E. 8 — Orange red berries 1 6

Horizontalis, D. 2 — Red berries and Autumn foliage 1 6

Pannosa, E. 12—Silvery foliage producing white flowers, followed by red berries 1 6

Serotina, E. 10—Pendulous growth covered in Autumn with masses of bright red berries 1 6

CRATAEGUS

Crentulata, E. 8 — Red berries, very suitable for hedges 1 6

Hodginsii, E. 10—An orange red fruiting variety, producing large clusters of berries 1 6

Pyracantha Augustifolia, E. 8—White flowers followed by orange berries 1 6

Rogersiana Flava, E. 10—White flowers followed by bunches of red berries 1 6

CREPE MYRTLE—See Lagerstroemia.

CROTALARIA

Laburnifolia, E. 8—Unique shrub producing spikes of greeny yellow blooms 1 6

CUPHEA

Platycentra, E. 2 — Cigar flower, red, tipped white 1 0

Jorullensis, E. 4—Yellow and red 1 6

CURRANT (Flowering) — See Ribes.

CYDONIA (Flowering Quince)

Nivalis, D.6—White 1 6

Nivea Extus Coccinea, D. 6—White and pink flowers 1 6

Rosea, D. 6—Pink 1 6

Rubra Grandiflora, D. 6 — A rich bright red 1 6

Sargentii, D. 6—Apricot 1 6

Simonii, D. 4—Large semi-double crimson flowers 1 6

Vermilion, D. 4—Vermilion scarlet flowers 1 6

Winter Cheer, D. 4—Orange scarlet flowers 1 6

CYTISUS

Andreana, D. 6—Crimson and yellow flowers 1 6

Cyphomandra (Tree Tomato)—Betacea, E. 10 .. .. 1 0

Laburnum, D. 15—Common laburnum. Yellow 1 6
Lilac Time, E. 5—Lilac pink blooms 2 0
Lord Lambourne, D. 6—Dark crimson, yellow tipped pink 2 0
Stenopetalus, E. 10 — Produces spikes of yellow flowers 1 6

DAPHNE

Rubra, E. 3—Red plants from .. 3 6

DEUTZIA

Candidissima Flors Plena, D. 6—Double white 1 6
Gracilis, D. 2—Dwarf grower, single white 1 6
Rosea Flora Plena, D. 6—Double white, with pink on outside of petals 1 6
Pride of Rochester, D. 4—Double white flowers 1 6

DIERVILLA

Abel Carriere, D. 8—Rosy crimson 1 6
Amablis, D. 8—Light pink 1 6
Candida, D. 8—Pure white 1 6
Conquete, D. 8—Large pink 1 6
Eva Rathke, D. 6—Dark crimson 1 6
Glorie de Bouquets, D. 8—Dark rose 1 6
Styriaca, D. 8—Deep pink tubular flowers 1 6

DIOSMA

Ericoides, E. 4—Sweetly scented white flowering shrub 1 6

DIPLACUS

Hybrida, E. 3—Orange buff flowers 1 6
Mrs. A. Scholes, E. 3—Deep crimson flowers 1 6

DOMBEYA

Dregiana, E. 12 — Pure White scented blooms 1 6
Mastersi, E. 12 — Large white blooms 1 6

DORYANTHES

Palmeri, E. 15—Large spikes of crimson flowers 1 6

DORYPHORA

Sassafras, E. 30—A native tree with attractive white flowers .. 1 6

DOUBLE APPLE — See Malus.

DOUBLE CHERRY — See Cerasus.

DOUBLE PEACH — See Amygdalus.

DOUBLE PLUM—See Prunus.

DRACAENA

Australas, E. 8 .. .. 1 6

DURANTA

Alba, E. 8—White flowered variety 1 0
Plumieri, E. 8—Lavender flowers, a popular hedge plant 1 0
Variegata, E. 8—Suitable for specimens or hedges 1 6

ELAEAGNUS.

Japonica Macrophylla Aurea Variegata, E. 10 .. .. 1 6

ELDERBERRY — See Sambicus.

ELM.—See Ulmus.

ENGLISH LAUREL—See Cerasus lauro-cerasus.

ERIOSTEMON

Nerifolium—A native shrub with long spikes of white flowers .. 1 6

ERYTHRINA (Coral Tree)

Crista-galli, D. 8—Deep scarlet .. 1 6
Indica, D. 30—Well-known Indian Coral Tree 1 6

ESCALLONIA

Macrantha (Large flowered), E. 6—Pink, quick growing, recommended for hedges 1 6
Montevidiensis, E. 10—White flowers, borne in bunches 1 6

EUCALYPTUS

Botryoides, E. 60 — One of the best for shelter trees 1 0
Calophylla Rosea, E. 20—Rosy pink flowering gum 1 6
Citriodora, E. 75—Lemon scented gum 1 3
Corynocalyx, E. 100—Sugar gum 1 3
Ficifolia, E. 15—The Scarlet Gum of Western Australia 1 6

We can also supply Stricklandii, Leucoxylon Rosea, Steedmanii, Torquata, and Globulous (Tas. Blue Gum).

EUGENIA

Pendula, E. 15—Red foliage and purple berries 1 6
Smithii, E. 20—The Native Lily Pilly 1 6

EUONYMUS

Japonica, E. 10—Large growing variety, red berries 1 6
Japonica Aurea, E. 6 — Golden variegated form 1 6
Latifolius Albus, E. 4 .. .. 1 6
Latifolius Aurea, E. 8 .. .. 1 6

EUPATORIUM

Ianthinum, E. 4—Large dark lilac flowers 1 6

Megalophyllum, E. 5—Taller growing variety, with larger heads of bloom 1 6

EUPHORBIA

Splendens, E. 4 — Very prickly, bright crimson flowers, suitable for rockery 1 6

EXOCHORDA

Grandiflora, D. 8—(Pearl Bush) One of the best white flowering shrubs 1 6

FEIJOA

Choiceana, E. 10 — A selected variety, producing larger fruit than the type .. ..

Sellowiana, E. 10—Flowering and fruiting shrub, native of South America, the red and white blooms being very attractive .. 2 0

FELICIA

Augustifolia, E. 2—Lilac flowers of a very pleasing appearance 1 6

FICUS

Australis, E. 60 — Port Jackson Fig 1 6

Hillii, E. 30 — A very beautiful variety suitable for street planting and tall hedges 1 6

Macrophylla, E. 60—Moreton Bay Fig 1 6

FIDDLEWOOD — See Citharexylum.

FIG—See Ficus.

FLAME TREE—See Sterculia.

FLOWERING CYPRESS — See Tamarix.

FORSYTHIA

Intermedia, D. 8—Upright growing, yellow flowers 1 6

Viridissima, D. 8 — Hardy shrub, clear yellow bell shaped flowers 1 6

FRANGIPANNI — See Plumieria.

GARDENIA

Globosa, E. 15—Large single white flowers 2 0

Intermedia, E. 3—Pure white fragrant flowers 2 0

Magnifica, E. 4 — Very fragrant white scented flowers 2 0

Radicans, E. 2 — Dwarf growing variety, white flowers 1 6

Thunbergii—Large, tubular, single white flowers, sweetly scented .. 1 6

GENISTA

Monosperma Pendula, E. 6—Weeping white broom 1 6

GLEDITSCHIA

Triacanthos, D. 50—White 1 6

GOLDFUSSIA

Anisophylla, E. 3—Lavender bell shaped flowers 1 6

GORDONIA

Anomala, E. 10—A very rare shrub, producing large creamy white flowers 2 0

GREVILLEA

Banksii Fosterii, E. 6 — Rich crimson colored flowers 2 0

Dallachiana—Flowers small, borne in profusion, being a rich rosy red tipped with cream 1 6

Robusta, E. 40—Silky Oak 1 6

Rosmarinifolia, E. 6—Flowers rosy red, with pale cream centre .. 1 6

GUAVA—See Psidium.

GUELDER ROSE—See Viburnum.

HABROTHAMNUS

Elegans, E. 6 — Showy scarlet flowering shrub 1 6

HAKEA

Eucalyptoides, E. 8—A West Australian shrub bearing crimson flowers 1 6

Saligna, E. 15 — Small growing native shrub 1 6

HARPEPHYLLUM

Caffrum, E. 40—Known as the Kaffir Plum 2 0

HAWTHORN—See Crateagus.

HELIOTROPIUM

Can supply named kinds 1 0

HIBISCUS

Camdeni, E. 8—Single red 1 6

Conqueror, E. 6—Buff yellow 1 6

General Courteges, E. 8 — Large flower, scarlet 1 6

George Harwood, E. 10 — Single pink, dark centre 1 6

Island Empress, E. 6—Rich pink, double 1 6

Lambertii, E. 8—Double crimson 1 6

Peachblow, E. 8 — Semi-double, salmon pink 1 6

Rose Scott, E. 8 — Single Rose, pink with dark eye 1 6

Wilder's White, E. 8—Almost a pure white 1 6

HIBISCUS (Syriacus Type)
Alba Plena—Double white, dark eye 1 6
Boule de Feu—Fiery red; double 1 6
Monstrosus—Large single white, dark eye 1 6
Totus Alba—Pure white, single .. 1 6

HOLLY—See Ilex.

HOLMSKOLDIA
Sanguinea, E. 8—Unusual shrub, red flowers 1 6

HONEY LOCUST—See Gleditschia.

HORSE CHESTNUT—See Aesculus.

HOVENIA
Dulcis, D. 20—The Chinese Raisin, producing very sweet fruit 1 0

HYDRANGEA
Can supply named sorts from 1 0

HYMENOSPORUM
Flavum, E. 20—A yellow flowering native tree 1 6

HYPERICUM
Moserianum, E. 3—Yellow 1 6
Patulum Henryii, E. 4—Rich yellow 1 6

IBOZA—See Moschosma.

ILEX
Aquifolium, E. 15—English Holly 2 0

ILLAWARRA FLAME TREE—See Sterculia.

ILEX
Cornuta—Chinese Holly 1 6

IMPATIENS
Roylei, E. 4—Flowers soft mauve 1 0

INDIAN HAWTHORN — See Rhaphiolepsis.

INGA
Pulcherrima, E. 6 — Red tassel flower 1 6

IOCHROMA
Tubulosa, E. 8 — Blue tubular flowers 1 6

JACARANDA
Mimosaefolia, D. 30 — Lavender bell shaped flowers in spring; splendid for avenue or street planting 1 6

JAPONICA—See Cydonia.

JASMINUM
Fruticans, E. 8 — Very pretty yellow flowering shrub 1 6

Primulinum, E. 6 — Semi-double yellow 1 6

JUDAS TREE—See Cercis.

JUSTICIA
Magnifica, E. 4—Curious shaped pink flowers 1 6

KERRIA
Japonica, D. 4 — Single yellow flowers 1 6

KURRAJONG—See Sterculia.

LABURNUM—See Cytisus.

LAGERSTROEMIA
Eavesii, D. 8 — Mauve, splendid variety 2 0
Flos-Regina, D. 12 — The best pink variety 2 0
Indica Rubra, D. 20—Bright red 2 0
Indica Alba, D. 8—White 2 0

LAGUNARIA
Patersoni, E. 30—Norfolk Island Hibiscus, a tall growing, pink flowering tree 1 6

LANTANA
Chelsea Gem, E. 4—Orange and red 0 9
Drap D'or, E. 4—Yellow 0 9
Sellowiana, E. 4—Mauve 0 9
Snowflake, E. 4—Pure white 0 9

LASIANDRA
Edwardsii, E. 6—Large flowers, purple 1 6
Macrantha Grandiflora, E. 6—Extra large flowers deep purple, best variety 1 6
Rosea, E. 6—Pink, free flowering 1 6

LAUREL—See Camphora and Cerasus Lauro-cerasus.

LAURUS (Sweet Bay)
Nobilis, E. 20 .. .. 1 6

LAURISTINUS — See Viburnum.

LAVANDULA
Dentata, E. 3—Purple flowers .. 1 0
Spica—Common lavender 1 0
Stoechas, E. 3—French lavender, dark purple 1 0

LAVENDER—See Lavandula.

LEONOTIS—Lion's Tail.
Leonurus, E. 4 — Dark orange flowers 1 0

LEPTOSPERMUM
Nichollsi, E. 8—Beautiful crimson flowers 1 6
Rotundifolium — Large flowered single pink variety 1 6
Sandersii, E. 6—Large single pink flowers 1 6
Scoparium Alba Plena, E. 6—Double white 1 6

LIBONIA

Floribunda, E. 3—Small scarlet and yellow flowers 1 6

LIGUSTRUM

Very hardy shrubs for hedges or specimens. Flowers not suitable for picking.

Lucidum—Japanese Privet for tall hedges, per dozen 1 6

Ovalifolium Aureum Elegantissinum—Golden privet, suitable for specimens or hedges. Pot grown plants 0 9

Pubescens—Small leaved privet. The variety most used for hedges, per dozen 1 6
Per hundred 8 0

LILAC—See Syringa.

LILY OF THE VALLEY TREE—See Clethra.

LILLY PILLY—See Eugenia.

LINUM

LION'S TAIL—See Leonotis.

Trigynum, E. 3—Bell shaped clear yellow flowers 1 6

LIQUIDAMBAR

Stryaciflua, D. 40 — A beautiful tree, leaves turn purple, crimson and yellow in Autumn 2 0

LIRIODENDRON

Tulipiferum, D. 30—Tulip Tree .. 2 0

LONICERA

Caprifolium, D. 6—Fragrant flowers, which shade from yellow to red 1 6

Fragrantissima, E. 8 — Cream, sweetly scented 1 6

Nitida, E. 4—Creamy white fragrant flowers 1 6

LOPOSTEMON — See Tristania.

LUCULIA

Gratissima—Beautiful pink flowering shrub; requires very careful attention. Plants from 2 0

MACADAMIA (Queensland Nut)

Integrifolia, E. 20—Smooth-leaved form of this popular Nut tree .. 1 5

Ternifolia, E. 20—An ornamental and valuable fruiting tree 1 6

MACKAYA

Bella, E. 6—Flowers Lilac purple 1 6

MACLURA

Aurantica—Used for tall thorny hedges 1 6

MAGNOLIA

Fuscata, E. 8—Port Wine Magnolia 1 6

Grandiflora, E. 20—Large, white.. 2 0

Obovata Purpurea, D. 10—Deep purple 2 0

MALUS—Crab Apple.
Can supply named kinds 1 6

MAY—See Spirea.

MELALEUCA

Hypericifolia, E. 8—The Scarlet Tea Tree 1 6

Laterita, E. 10—Brick red blossoms 1 6

Leucadendron, E. 30—A beautiful tree with leaves like a callistemon 1 6

MELIA

Azedarach, D. 20—White cedar .. 1 6

METROSIDEROS (N.Z. Pohutukawa)

Tomentosa, E. 20—Blood red, good 2 0

MOCK ORANGE — See Philadelphus.

MONTANOA

Grandiflora, E. 10—Nice foliaged plant, producing long spikes of white flowers 1 6

MORETON BAY CHESTNUT—See Castanospermum.

MORETON BAY FIG — See Ficus.

MOSCHOSMA

Ripara, E. 4—Producing in winter masses of healthy mauve bloom 1 6

MURRAYA

Exotica, E. 6—White flowers, sweetly scented 1 6

MUSSAENDA

Frondosa, E. 8—Orange flowers backed by a white leaf, nice shrub 1 6

MYRTLE—See Myrtus.

MYRTUS

Communis, E. 6 — A handsome shrub 1 6

NANDINA

Domestica, E. 8—Sacred Bamboo of Japan 1 6

NERIUM

Alba, E. 10—Single white 1 6

Dr. Golfin, E. 8—Deep rosy red, single 1 6

Luteum Plenum, E. 6—Semi-double creamy yellow 1 6

Madonna Grandiflora, E. 6—Large, semi-double, white 1 6
Mrs. F. Roeding, E. 6 — Semi-double, salmon 1 6
Monsieur Belaguier, E. 6—Single, light pink 1 6
Souvr. de Cazalis Allut, E. 6—Dark crimson, single 1 6
Splendens Variegata, E. 6—Leaves variegated yellow, flowers double pink 2 0
Splendens, E. 10 — Large double pink 1 6

NEW ZEALAND CHRISTMAS BUSH—See Metrosideros.

NEW ZEALAND GLORY PEA—See Clianthus.

OAK—See Quercus.

OCHNA

Multiflora, E. 6—Yellow flowers.. 1 6

OLEA

Europea, E. 20—Common Olive .. 1 0

OLEANDER—See Nerium.

OLIVE—See Olea.

OSMANTHUS

Ilicifolius Variegatus, E. 4—Japanese variegated Holly 1 6
Fragrans E. 6—Slow growing, tiny flowers, apricot scented 1 6

PEACH (Flowering) — See Amygdalus.

PEARL BUSH—See Exochorda.

PEPPER TREE—See Schinus.

PHILADELPHUS

Grandiflorus, D. 6 — Single large white flowers 1 6
Speciosa, D. 8—Single, large white flowers 1 6

PHOTINIA

Glabra Rubens, E. 10—Grown for the brilliant red young foliage, suitable for hedges or specimen tree 1 6
Serrulata, E. 18 — Chinese Hawthorn; a white flowering tall shrub with beautiful red leaves 1 6

PITTOSPORUM

Eugenoides Variegata, E. 15 .. .. 2 0
Rhombifolium, E. 15—Large clusters of orange berries after flowering 1 6
Undulatum, E. 20 — The Native Daphne, sweetly scented at night 1 6

PLANE (Oriental) — See Platanus.

PLATANUS

Orientalis, D, 50—Plane Tree, used extensively for street plantings 1 6

Ecklonii, E. 4 — Quick growing shrub, with spikes of attractive blue flowers 1 6

PLUM (Flowering)—See Prunus.

PLUMBAGO

Capensis, E. 6—Blue, used for hedges 1 0
Capensis Alba, E. 6—Pure White 1 0

PLUMIERIA

Acutifolia, D. 12 — Frangipanni Tree, a beautiful shrub for warm climates, from 2 0
Rosea, D.10 — Pink flowered variety, from 2 0

PODALYRIA

Grandiflora, E. 6 — Pea shaped flowers of a lovely shade of pink 2 0

POINCIANA

Gilliesi, E. 6—Bird of Paradise flower, yellow and red 2 0

POINSETTIA

Pulcherrima, D. 10—Insignificant greenish yellow flowers surrounded by bracts of brilliant scarlet 1 6

POMEGRANATE—See Punica.

POPLAR—See Populus.

POPULUS

Bolleanam, D. 40—Upright form of the silver poplar 1 6
Deltoides, D. 40—Vigorous grower, large leaf 1 6
Dilatata, D. 50—Upright poplar.. 1 6
Monolifera Aurea, D. 25—Golden-leaved poplar 2 0

PORTUGAL LAUREL—See Cerasus Lusitanica.

PRIVET—See Ligustrum.

PORT WINE — See Magnolia Fuscata.

PROSTANTHERA

Lasianthos—Denser growth, but smaller bunches than Ovalifolia 1 6
Ovalifolia, E. 8—A native shrub, rich purple flowers 1 6

POTATO FLOWER—See Solanum.

PROTEA

Mellifera, E. 8—Cape Honeysuckle, pink and yellow 1 6

PRUNUS

Blireiana — Double flowers of a bright rose pink 1 6

Moserii, fl., pl., D. 10—Light purple foliage 1 6

Mume, D. 10—Japanese Apricot. Double pink flowers 1 6

Pissardi Nigra, D. 20—Darker foliaged than Pissardi 1 6

Sinensis (Chinese), D. 6—Double flowering pink 1 6

Sinensis Alba, D. 6—Double white 1 6

Triloba, D. 6—Double rose pink.. 1 6

Vesuvius, D. 10—Large leaves of purple bronze 1 6

PSIDIUM

Cattleyanum, E. 8—Purple guava 1 6

Parker's Hybrid, E. 15 — Large white fruit 1 6

Pyriferum, E. 15—Yellow guava 1 6

PUNICA

Granatum, D. 10—Common Pomegranate 1 6

Granatum, fl. pl., D. 8—Double red 1 6

Granatum Andre Leroy, D. 5—Reddish salmon 1 6

Nana, D. 2—Dwarf form of the fruiting variety 1 6

QUEENSLAND FIRE TREE—See Stenocarpus.

QUEENSLAND NUT—See Macadamia.

QUERCUS

Coccinea (Scarlet) — One of the finest Oaks, foliage turning deep scarlet in Autumn 2 6

Palustris, D. 40—Pin Oak. Foliage deep crimson in Autumn 2 0

Robur, D. 50—English Oak 2 0

Rubra, D. 40—Red foliage in Autumn 2 0

RHAPHIOLEPIS

Indica, E. 8—Indian Hawthorn, white with pink centre followed by black berries 1 6

Ovata—Larger foliage than Indica 1 6

Fergusonii, E. 3—Very dwarf and slow growing 1 6

RHUS

Succedanea, D. 10—Leaves turn to crimson in Autumn, non suckering variety 1 6

ROCK ROSE—See Cistus.

RONDELETIA

Amoena, E. 8 — Highly recommended shrub, salmon pink flowers 2 0

ROSMARINUS

Officinalis, E. 4 — (Rosemary) makes good hedge or border plant 1 0

RUELLIA

Macrantha, E. 2 — Rosy purple flowers 1 0

RUSSELIA

Juncea, E. 4 — Scarlet tubular flowers 1 6

SALIX

Babylonica, D. 50—Weeping willow 1 6

Caprea, D. 30—Known as Pussy Willow 1 0

SAMBUCUS (Elder Berry)

Aurea, D. 12—Golden leaves 1 6

SASSAFRAS—See Doryphora.

SCENTED VERBENA — See Aloysia.

SCHINUS (Pepper Tree).

Molle, E. 20—A fast growing shade tree suitable for hot dry climates 1 0

SENECIO

Grandifolius, E. 8—Yellow flowers, and handsome foliage 2 0

Petasites, E. 6 — Large leaves, with large beads of yellow flowers 1 6

SESBANIA

Tripetti, D. 10—Brazilian Glory Pea, rich tango colored flowers 1 6

SILKY OAK—See Grevillea.

SNOWBALL TREE — See Viburnum.

SNOWBERRY — See Symphoricarpus.

SPARTIUM

Junceum, E. 8—Beautiful flowering yellow shrub (Spanish Brown) 1 0

SPIREA (May)

Anthony Waterer, D. 4—Crimson flowers 1 0

Reevesiana, D. 6 — Pure white flowers, single 1 0

Reevesiana, fl., pl., D. 6—Double white flowers 1 0

STENOCARPUS (Qld. Fire Tree)
Sinuatus, E. 30—Curious scarlet flowers rayed like spoke of a wheel 1 6
STERCULIA (Kurrajong)
Acerifolia, D. 50 — Flame Tree, vivid scarlet 1 6
Hybrida, seedlings 1 6
STRAWBERRY TREE — See Arbutus.
STRELITZIA
Augusta, E. 15—A tall growing plant with very distinctive foliage and bearing white flowers in Spring 2 6
ST. JOHN'S BREAD—See Ceratonia.
SWEET BAY—See Laurus.
SYMPHORICARPUS
Racemosus, D. 3 — Large snow-white berries in Autumn 1 6
SYNCARPIA
Laurifolia, E. 60—Turpentine Tree 1 6
SYRINGA—See Philadelphus.
SYRINGA (Lilac).
Can supply named kinds from 2 0
TAMARIX (Flowering Cypress)
Gallica, D. 12—Pink 1 0
Japonica Plumosa, D. 12—Beautiful Autumn foliage 1 0
TEA TREE—See Leptospermum and Melaleuca.
TECOMA
Capensis, E. 12—Orange red 1 0
Smithii, E. 10—Orange yellow .. 1 6
Velutina, E. 10—Yellow 1 6
TELOPEA
Speciosissima, E. 10—Waratah .. 2 0
TOXICOPHLAEA
Spectabilis, E. 8—White flowering, sweetly scented 1 6
TRISTANIA
Conferta, E. 50—Valuable shade tree, rapid growth 1 6
TREE TOMATO—See Cyphomandra.
TULIP TREE—See Liriodendrom.
TURPENTINE—See Syncarpia.
ULMUS (Elm)
Campestris, D. 80—English Elm .. 1 6
Chinensis, D. 50—English Elm .. 1 6
VERONICA
Andersonii—Blue flowers 1 3
Andersonii Variegata 1 6
Blue Gem—Lavender blue flowers 1 3
Gracilis—Small white flowers .. 1 3
Imperialis—Amaranth red 1 3
La Seduisant—Purplish crimson .. 1 3
VIBURNUM
Opulus, D. 8—Guelder rose or Snowball Tree 1 6
Punctatum, E. 8—Small leaves, white flowers 1 6
Rhytidophyllum, E. 8—Creamy white flowers, followed by red berries in the Autumn 1 6
Suspensum, E. 6—Sweetly scented white flowers 1 6
Tinus, E. 6—Laurustinus, white .. 1 6
VIRGILLIA
Capensis, E. 15—Rosy purple pea-shaped flowers 2 0
WATTLE—See Acacia.
WEDDING BELLS—See Deutzia.
WEIGELA—See Dievilla.
WHITE CEDAR—See Melia.
WILLOW—See Salix.

CLIMBING PLANTS.

AMPELOPSIS
Henryana, D.—Dark velvety foliage with silvery markings turning to red in Autumn 1 6
Veitchii, D.—True Virginian Creeper. One of the best deciduous climbers grown 1 6
ANTIGNON
Leptopus, D.—One of the prettiest of climbers, large sprays of beautiful pink flowers 1 6
BEAUMONTIA
Grandiflora, E. — Creamy white flowers 1 6
BIGNONIA
Australis, E.—A vigorous climber, cream and brown 1 6
Cherere, E.—Large scarlet 1 6
Floribunda, E. 1 6
Grandiflora, D.—Orange 2 0
Guilfoylei, D.—Orange brown .. 1 6
Jasminoides Alba, E.—Pure white 1 6
Lindleyana, E.—Lilac 1 6
Rosea, D.—Rosy lilac 1 6
Tweediana, E. — Clear yellow flowers 1 6
Venusta, E. — Orange flowers, best of all 1 6

BOUGAINVILLEA

Glabra Sanderiana, E.—Magenta.. 1 6
Laterita (Brick Red) 2 0
Magnifica Trailli, E. — Bright purple 1 6
Mrs. Butt—Color carmine crimson 3 0
Rosea—A lovely strawberry pink shade 2 0
Thomasii Syn, B.—Rosea 2 0

CANAVALIA

Bonariensis, E.—Vigorous climber, glossy foliage, long purple pea-shaped flowers 2 0

CAROLINA JASMINE — See Gelsemium.

COBEA

Scandens, E. — Purple lilac bell-shaped flowers 1 3

CLEMATIS

Montana Rubens, D.—Pink flowers, red foliage 1 6
Montana Superba, D.—Pure white 1 6

DOLICHOS

Lignosus—Pink 1 3
Lignosus Alba—White 1 3

FICUS

Stipulata, E.—Climbing Fig 1 0
Minima — Very small leaved variety 1 6

GELSEMIUM

Sempervirens, E. — Sweet-scented yellow flowers 1 6

HEDERA

Canariensis Variegata, E.—Irish Ivy 1 6
Helix, E.—English Ivy 1 6

HONEYSUCKLE—See lonicera.

IPOMEA

Learii—The perennial blue morning glory 1 6

IVY—See Hedera.

JASMINE—See Jasminum.

JASMINUM

Fruiticans, E.—Yellow 1 6
Grandiflorum, E.—White 1 6
Poicoicum, E.—White, star shaped 1 6
Primulinum, E.—Yellow. Good .. 1 6
Stephanense, E. — Very hardy, pink flowering 1 6

LATHYRUS

Latifolius Alba, E.—White 1 0
Pubescens, E.—Argentine Blue pea 1 0

LONICERA

Aurea Reticulata, E.—Variegated Honeysuckle 1 6
Caprifolium, E. — English fragrant 1 6
Halleana, E.—Best white honeysuckle 1 6
Hildebrandtii, E.—Long tubular flowers, cream at first, but deepening to a rich golden yellow .. 2 0
Sinensis, E.—White and red 1 6

MANDEVILLEA

Suaveolens, D.—Pure white 1 6

MANETTIA

Bicolor, E.—Yellow and red 1 3

MIKANIA

Scandens, E. — Quick growing, yellow flowers 1 6

PASSIFLORA

Edulis, E. — Fruiting passion, 5/- dozen 0 6

PERENNIAL PEA—See Lathyrus.

PHASEOLUS

Caracalla, E. (Snail Flower)—Peculiar flower, blue, yellow and white 1 6

POIVERA

Coccinea, D.—Reddish flowers .. 1 6

POTATO FLOWER—See Solanum Wendlandii.

QUISQUALIS

Indica, E. (Rangoon Creeper)—Flowers vary from orange to red and pink on the same plant .. 1 6

RHYNCHOSPERMUM

Jasminoides, E.—White, strong perfume 1 6
Jasminoides Variegata, E.—Variegated leaves 1 6

SOLANDRA

Grandiflora, E. — Trumpet shaped cream flowers, tinged with pink 2 0

SOLANUM

Jasminoides, E.—White 1 6
Seaforthianum, E.—Blue flowers and red berries 1 6
Wendlandii, E.—Lavender blue .. 1 6

SNAIL FLOWER.—See Phaseolus.

STEPHANOTIS

Floribunda, E.—Pure white, perfumed flowers 2 0

STIGMAPHYLLON

Ciliatum, E.—Yellow 1 6

TACSONIA

Mollisima, E.—White fruited or Banana Passion Fruit 1 0

THUNBERGIA

Gibsoni, E.—Orange, very beautiful climbing plant 1 6

Laurifolia, E.—Pale blue, with yellow throat 1 6

VIRGINIAN CREEPER — See Ampelopsis.

WISTARIA

Sinensis, D.—Lavender 2 0

Sinensis, Alba, D.—White 2 0

CONIFERS AND TAXADS.

ABIES

Alba—White Spruce, 50ft. 2 0

Excelsa—Norway Spruce, 50ft. .. 2 0

ARAUCARIA

Bidwilli Bunya Bunya 2 6

Excelsa—Norfolk Island Pine .. 2 6

BUNYA PINE—See Araucaria Bidwilli.

CALLITRIS

Cupressiformis, E. 30—Sometimes called the Port Jackson Cypress 2 0

CEDRUS

Deodora—Indian Cedar, 60ft. .. 2 0

CRYPTOMERIA

Elegans—60ft. upright habit, well branched and covered with fine foliage 2 0

CUPRESSUS

Arizonica, E. 20—A hardy variety with spreading habit and grey green foliage. Seedlings 1 6

Brunniana Aurea—12 to 15 feet, and has beautiful golden yellow foliage. Plants are of a naturally conical shape. From 3 6

Knightii, 80ft., very hardy 1 6

Lambertiana Horizontalis, 60ft.—Largely used for hedges and breakwinds, from 2 6

Lambertiana Horizontalis Aurea—40ft., very beautiful golden foliage, from 3 6

Sempervirens—50 feet, upright growing cypress. Seedlings from 1 6

Torulosus—25ft., useful for hedges, propagated from cuttings 3 6

GINKGO

Biloba, D. 50—Commonly known as Maiden Hair Tree 2 0

JUNIPERUS

Africana—8ft., a dwarf compact variety 2 0

Chinensis Argentea, 12ft.—Silver variegated foliage 2 0

Hibernica—Irish Juniper, 20ft., very compact, but slow growing variety 2 0

Sabina—5ft., rambling growth .. 2 0

breakwinds and avenues 1 6

MAIDEN HAIR TREE — See Ginkgo.

NORFOLK ISLAND PINE—See Araucaria Excelsa.

PINUS

Insignis—100ft., largely used for

PODOCARPUS

Elatus—40ft., the Illawarra Plum 1 6

RETINOSPORA

Leptoclada, 10ft.—Rather narrow, upright growth and greyish foliage 2 0

Obtusa Crippsii, E. 12 — One of the richest golden colors available 2 6

Obtusa Nana Aurea—4ft., a very slow growing variety, with golden foliage, highly suitable for small specimens 3 0

Plumosa—10ft., light feathery leaves 1 6

Plumosa Aurea, 10ft.—Golden form of the preceding 2 0

Spuarosa, 8 to 10 ft.—Bluish green foliage 2 0

SALISBURIA—See Ginkgo.

SPRUCE—See Abies.

TAZODIUM

Distichum, 30ft.—Deciduous Cypress 2 0

THUYA

Lobbi—40ft., a handsome Californian tree 2 0

Occidentalis—30ft. 2 0

Occidentails Compacta Aurea—A compact golden form 3 0

Orientalis — 40ft., the Bookleaf Cypress 2 0

THUYOPSIS

Dolobrata Variegata, 30ft.—Coarse leaved variegated variety 2 0

WELLINGTONIA

Gigantea, 50ft.—The giant Redwood of California 2 0

OUTDOOR PALMS.

BRAHEA

Robusta — Cotton or Railway Palm, from 2 0

CHAMAEROPS

Excelsa—Fan palm, from 2 0

COCOS

Plumosa—A tall and graceful growing palm, from 2 0

Yatay—Wine Palm. Beautiful and very hardy, from 2 0

PHOENIX

Canariensis—The Canary Island Palm, from 2 0

Roebelini—Graceful dwarf variety suitable for house decorations. From 2 6

Sylvestris—A large, strong growing species of upright growth, having long, sweeping fronds similar to Phoenix Canariensis. From 2 0

SEAFORTHIA

Elegans—N.S.W. Bangalow Palm, from 2 0

HERBACEOUS, PERENNIAL AND ROCKERY PLANTS.

ACANTHUS

Mollis—Foliage plant suitable for border 1 0

AGAPANTHUS (African Lily)

Umbellatus—Blue 0 6

Umbellatus Alba—White 0 6

AGATHEA

Coelestis—A dwarf shrub bearing blue flowers with yellow centre 1 0

ANTHERICUM

Alba Variegatum—Showy variegated foliage plants 1 0

BILLBERGIA

Nutans—Peculiar colored flowers, yellowish rosy blue 1 0

CALLA

Ethiopica—White Arum Lily 0 6

CENTRANTHUS

Ruber—Bushy plant, bright red .. 1 0

CERASTIUM

Tomentosum — A trailing plant with silvery foliage, white flowers 1 0

CINERARIA

Maritima—Yellow, used for silvery foliage for bordering from boxes 0 6

CONVOLVULUS

Mauritanicus—A trailing rockery plant giving masses of blue flowers 1 0

FELICIA

Rotundifolia — Blue daisy like flowers almost throughout the Year 1 0

GAZANIA

Can supply named sorts, per dozen 2 6

HEERIA

Elegans—A trailing plant, purplush flowers, are freely produced 1 0

HEMERCALLIS

Pulva Flora Plena—Large double flowers of a rich coppery orange 1 0

HETROCENTRON

Roseum—Pink 1 0

HOLCUS

Bulbosa Variegata—Hardy grassy plant with silvery green leaves, per dozen 2 0

KNIPHOFIA

Uvaria—Orange and scarlet on tall stems, hardy evergreen, each .. 0 6

LIRIOPE

Spicata—Violet, dwarf grass-like plants, suitable for shady rockeries. Per dozen 2 0

LITHOSPERMUM

Coerulea—A dwarf plant suitable for rockeries; flowers blue 1 6

LOTUS

Peliorhynchus—Silvery green foliage, brick red pea-shaped flowers 1 0

MARGYRICARPUS

Setosus—Trailing green shoots dotted with white berries 1 0

MESEMBRYANTHEMUM
Can supply named kinds. Per dozen 2 6

NEPETA
Mussini — Lavender flowers, low growing border plants, each 0 6

PLATYCODON
Grandiflorum Mariesii — Large cup-shaped deep blue flowers .. 1 0
Grandiflora Alba—Lilac White .. 1 0

PYRETHRUM
Matricaria—A dwarf bushy plant, double white blooms 1 0

REHMANNIA
Angulata—Tall spikes of large rosy purple flowers 1 0

SALVIA
Can supply named sorts 1 0

SANTOLINA
Chamaecyparissus—Silvery leaves and double yellow flowers 1 0

STATICE
Perezii—Blue everlasting 1 0

THALICTRUM
Dipterocarpum—Fern-like leaves, sprays of small mauve flowers .. 0 6

THYMUS
Pauciflorus — Strong growing mauve flowers 1 0

VITTADINA
Triloba — Small white daisy-like flowers, from boxes, dozen 3 0

SUCCULENTS.

We carry a stock of these plants, which are principally used in Rockeries, where they in nearly every case revel in hot, dry positions. Many of these plants produce brilliantly colored flowers or quaint, attractive growths, and are therefore deservedly popular for this purpose.

Prices range from 1/- to 2/- each.

ADVANCED PLANTS.

Many people do not like to have to wait for young plants to grow into size. This naturally takes some time. We have, therefore, catered for the one who requires a garden immediately, by growing on in tins of the principal varieties to suit all conditions of climate.

Prices range according to size of plants, and we will at all times be only too pleased to quote you for the lines you may be requiring.

Little or no risk in planting is taken with these plants, but it is essential that the plants must be removed from the tin before planting.

PARCELS POST.

The following revised rate of postage on parcels came into force on 16th DECEMBER, 1929:—

Weight	RATES			
	Scale 1	Scale 2	Scale 3	Scale 4
Not Exceeding 1 lb. ..				
" " 2 " ..	0 6	1 0	1 6	2 0
" " 3 " ..	1 0	1 3	2 0	2 9
" " 4 " ..	1 3	1 6	2 6	3 6
" " 5 " ..	1 6	1 9	3 0	4 3
" " 6 " ..	1 9	2 0	3 6	5 0
" " 7 " ..	2 0	2 3	4 0	5 9
" " 8 " ..	2 3	2 6	4 6	6 6
" " 9 " ..	2 6	2 9	5 0	7 3
" " 10 " ..	2 9	3 0	5 6	8 0
" " 11 " ..	3 0	3 3	6 0	8 9

SCALE 1 applies to parcels addressed to—

Places within a 30-mile radius of the office of posting, irrespective of whether the office of address is in the same State as the office of posting.

SCALE 2 applies to parcels addressed to—

(a) Other places in New South Wales;

(b) The Federal Capital Territory;

(c) Lord Howe Island and Norfolk Island.

SCALE 3 applies to parcels (other than those to which Scale 1 applies) addressed to—

VICTORIA, QUEENSLAND,

SOUTH AUSTRALIA, in respect only of parcels posted at offices within the area lying between the South Australian border and a line running from the junction of the Murray and Murrumbidgee Rivers northwards to the Queensland border at a point 170 miles from the South Australian border.

SCALE 4 applies to parcels addressed to—

SOUTH AUSTRALIA (other than those to which Scale 1 or Scale 3 applies);

WESTERN AUSTRALIA, TASMANIA,

NORTH AUSTRALIA, CENTRAL AUSTRALIA.

With the exception of the North and South Coast Lines, distances from Ryde are the same as from Sydney. On Northern Lines, take 12 miles away; on the South Coast, add 12 miles to your respective distance from Sydney, and you have the distance from Ryde.

As these rates only apply when freights are prepaid, customers are requested to add the amount to their remittance. If sent by parcel rate, and not prepaid, 25 per cent. is added to the above rate at the receiving station. If freight is not enclosed, we will always send to pay. Unattended platforms have always to be prepaid. Insured risk rate 10 per cent extra. Twelve fruit trees weigh 18lb. packed; 50 trees about 60lb. packed.

STAMPED PARCELS PREPAID RATES (MAIL TRAIN).

SINGLE PACKAGE RATES, GOODS TRAIN, FOR NURSERY GOODS.

We are permitted to send all kinds of Nursery Goods by goods train, at single package rate, if such packages do not exceed 140lb. in weight. This rate is much cheaper than stamped parcel rates, but not so quick and reliable. Freights are the same if paid on arrival, except unattended platforms, which must be prepaid. Minimum weight, 14lb. Following are the charges:—

Miles	Package not exceeding 60lb.	61lb. and not exceeding 90lb.	91lb. and not exceeding 112lb.	113lb. and not exceeding 140lb.

PLEASE NOTE.

It is not our desire to Catalogue useless varieties in this Catalogue, therefore we have discarded many varieties in both Fruit Trees and Rose Plants.

Apart from those lines shown here in Catalogue we have many other varieties, but to our mind, not in any way equal to those Catalogued.

Should you, therefore, not see the line Catalogued that you are requiring, let us know, and we will in all probability be able to supply you.

300,000 Fruit Trees and 100,000 Roses in Various Stages.

Special Quotations for Orders of 100 and Upwards for Both Fruit Trees and Rose Plants.

All Trees and Roses Grown at Our Nurseries at Rydalmere.
